# MICROCHIP AND NANOCHIP IMPLANTS

MARK OF THE BEAST, THE ULTIMATE DANGER

—  
FINAL WARNING

Vic Flame,  
July 2020.

## **MICROCHIP AND NANOCHIP IMPLANTS** **Mark of the Beast, the Ultimate Danger – Final Warning**

*A subcutaneous RFID chip...*

### **FOREWORD**

The first version of this report was published in 2002. Since then, the trend towards the elimination of freedoms has never wavered. Instead, it was confirmed and strengthened, and the technologies described below continued to diversify and spread... 18 years later, the fact is that these technologies are beginning to expand and to be applied in a growing number of countries.

The dangers of these implants are now well known and widely documented.

The following update is a stern warning to all humanity about the very dangerous microchip and nanochip implants. Its purpose is to warn once again the people and maybe – who knows – to trigger the reaction that has desperately been missing so far...

However, this reaction is slow to appear. Will what is written and described in St John's Book of Revelation end up happening ? Will we be unable to avoid the worst ? The following undoubtedly constitutes my last effort to try to awaken souls and provoke reactions and oppositions to microchip and nanochip implants, and to the putrid, global and vicious system that's being pushed on us...

### **1. INTRODUCTION**

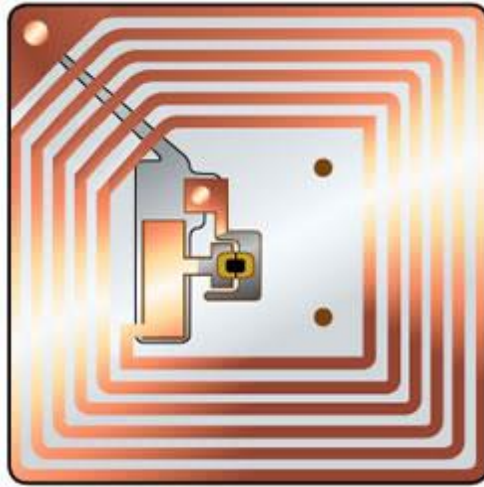

Electronic chips became so "ordinary" nowadays that we don't even think about them anymore. They are everywhere: in our calculators, our computers, our household appliance etc. For several years, we also have been finding them on our bank cards, social security cards, credit cards and even... on our identity cards !

There's a specific kind of microchip that's put on consumer products, for "logistics" reasons : RFID chips. Tags fitted with the biggest RFID chips (RFID = Radio Frequency Identification Devices) are made of adhesive paper a few square centimeters long, and have a square shaped, coiled antenna. This "RFID tags" system has been used by the U.S. military and the military in general for quite a while.

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

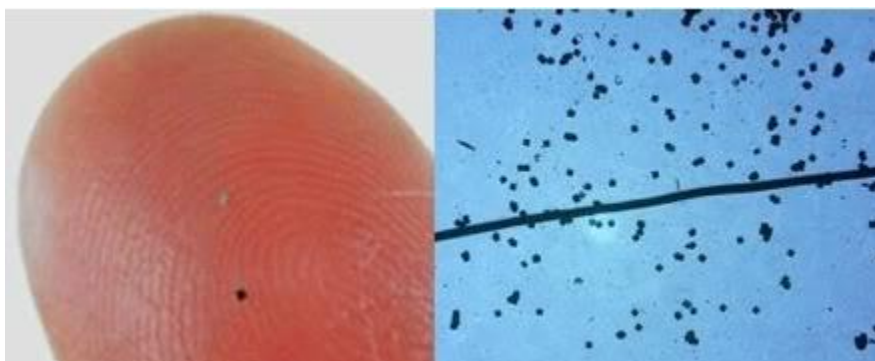

---

*A traditional RFID tag...*

The smallest RFID chips are tiny (they are the size of a speck of dust !). After the military, private companies are now getting into them too : Gillette razors and Benetton clothing, as well as the Carrefour supermarkets, add tiny chips on the packaging of their products, and sometimes even IN the products themselves, and these chips are destined to replace the barcodes we find on all our products ! These chips emit signals which, among other things, allow them to identify the need to "replenish stores" as soon as these are out of stock with their products. But RFID chips, which are already nicknamed "spychips", could also be used as "spies" that we are likely to bring back home ! In particular, they could be used to profile customers, to know their habits etc. Who can guarantee that they won't be used to eliminate gradually our privacy ? Interestingly, RFID chips have historically started to be used in the military field (aircraft fuselage, etc.) for... spying !

Some consumer groups, such as the American association CASPIAN (cf. [https://itlaw.wikia.org/wiki/Consumers\\_Against\\_Supermarket\\_Privacy\\_Invasion\\_and\\_Numbering](https://itlaw.wikia.org/wiki/Consumers_Against_Supermarket_Privacy_Invasion_and_Numbering)), already denounce, and rightly so, a scandal and an invasion of our privacy... Actually, several companies using RFID have been caught in the act of violating the privacy of unsuspecting people through the use of these chips !

*Hitachi's  $\mu$ -chip (mu-chip), one of the smallest RFID chips in the world.*

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

On the other hand, these RFID tags threaten many jobs (automated cash registers), and have already led to strikes in France...

RFID is already being replaced by "COMPUTATIONAL RFID" or CRFID, whereby RFID tags are turned into mini-computers with more opportunities to kill freedoms (cf. <http://www.newscientist.com/article/dn17616-rfid-tags-get-an-intelligence-upgrade.html>) !

Nowadays, RFID microchips encapsulated in glass, fitted with a coiled antenna, and which contain data (name, vaccinations etc..), are even implanted in animals and allow to identify them, to locate them, to track them down and to find them, possibly by satellite, when they got lost or when they escaped. In short, what was yesterday science fiction is now a reality.

But let's keep pondering : if one succeeded implementing that technique on animals, why couldn't we do the same thing... on human beings ?

This is technically and technologically possible, anyway, and we will see that chip implants for humans already exist, represent enormous dangers, and are spreading !

The tendency to apply RFID technology to the human body has begun to spread, unfortunately. In France, for example, placing chips on the clothing of the elderly with dementia (cf. [http://www.i3s-solutions.fr/docs/i3s-solutions\\_DirectMatin.fr\\_310113.pdf](http://www.i3s-solutions.fr/docs/i3s-solutions_DirectMatin.fr_310113.pdf) or [https://www.mediafire.com/file/63vqhj941lnwoet/grand\\_age\\_une\\_puce\\_pour\\_retrouver\\_les\\_personnes\\_dependantes\\_DirectMatin.fr\\_310113.pdf/file](https://www.mediafire.com/file/63vqhj941lnwoet/grand_age_une_puce_pour_retrouver_les_personnes_dependantes_DirectMatin.fr_310113.pdf/file)) has been proposed, in order to monitor them. In this specific case, these chips are already on the clothes, very close to the body...

Of course, we have legal, moral and ethical rules and also the Human Rights (that are flouted every day) to "protect" us... But are those fences truly sufficient and efficient, especially if those who have the power and make laws are the ones who infringe or contour them ?

A priori, the hypothesis of a microchip implanted in humans on a huge scale could be thought of as pure paranoia... But after reading this article, maybe you'll change your mind. What was being prepared – without our knowledge – fortunately appeared, and a nightmarish scenario will – maybe ! – be avoided thanks to us, thanks to YOU, if you react in time ! So, GET UP ! Today, the time has come to act for yourself, for your children and for future generations, or this planet will soon be crowded with zombies that will be guided by the will of those who will have implanted them the microchip...

And now, please read this article till the end, and make up your mind. The choice is yours... Yet, I hope that you'll choose to move, because the things we're going to talk about are happening HERE AND NOW ! You can also check the contents of this article through the links and websites referring to the topic discussed here (see the links and references in chapter 12).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### **2. HISTORY OF THE SUBCUTANEOUS MICROCHIP**

The subcutaneous microchip is not a brand-new invention; it has been worked on for more than 40 years, as the testimony of Carl W. Sanders shows.

Dr. Carl W. Sanders is an electronics engineer and an inventor. He worked for many governmental organizations and companies, such as IBM, General Electric, Honeywell and Teledyn. For 32 years, he worked in the bio-medical field, focusing on microchips.

In 1968, he takes part to a research project regarding a “spinal bridge” to heal a lady whose spine had been severely injured. The goal was to find a solution to link motor nerves etc. That project led to the creation of a microchip that reloads itself automatically thanks to the human body’s temperature variations, which gives it an almost unlimited life expectancy. In order to do so, the microchip is equipped with a thermo-electrical reloading circuit, and with a small reusable lithium battery. It is interesting to note that, back then, lithium was used a lot, notably by the NASA. Dr. Sanders was confirmed by a Boston Medical Centre doctor that **if the microchip broke inside a human body, the lithium would cause a severe and painful wound filled with pus. But despite that danger, “one” still decided to use a lithium battery for the microchip...**

**After spending \$1.5 millions to that purpose, it was found that both places of the human body where the temperature changes very fast are the forehead (just down the hairline) and the back of the hand.** Because of financial considerations (the microchip “was not bringing enough money”), the ones responsible for the project were told that they were to find new applications for that chip...

**As it had been noticed that the microchip’s frequency changes had direct effects on the patient’s behaviour once the microchip had been implanted in the body, “one” oriented the researches on the possibility to modify human behaviour with the help of the microchip.** The microchip could broadcast a signal stimulating different parts of the brain. It was possible, for instance, to raise the adrenaline rate, which caused a change of behaviour...

Furthermore, according to the discoveries made by Carl Sanders and his team, **birth control can be implemented through the use of the chip. The chip stops the production of hormones in the area of the pituitary gland, which causes instant menopause.** This was studied in India and in other parts of the world. Following Sanders, the ultimate purpose of the powers controlling the world is to **reduce the global population of 90%** : a size that is easier to control, according to them.

During a meeting with members of the C.I.A. and important personalities such as Henry Kissinger (ancient American secretary of State who’s in favour of a New World Order and who has a more than dubious past; under president Nixon, he personally supervised the major operations of the C.I.A. and of the F.B.I., and commanded the military officials), it was brought to Dr. Sanders’ attention that, in order to be able to **control the population**, it was necessary to **identify** it first.

So the project had to be reoriented once again, and **they added to the microchip the ability of recording (and restoring) data that could include the name and the face of the individual, his social security number (with international codes), his fingerprints, his physical description, his family genealogy, his address, his job information, info regarding his taxes reports and his medical records.** The “restoring” of the data can be done thanks to a special scanner that analyzes and processes the data contained in the microchip...

In that time, Dr. Sanders was working for the “Lucent Technologies” company. He baptized his subcutaneous microchip for humans the “#BT952000”. During the invention and the set up of the #BT952000 chip, the computer that Sanders was using was a “Data-Net 30” ... That computer already had a 18 bit name divided in 3 groups of 6 bits (6, 6, 6), to be precise. Sanders (who wasn’t a believer back then and who didn’t pay attention to numbers and such

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

things) also used for the microchip, logically and by convenience, a name corresponding to 18 bit, divided in 3 groups of 6 bit (6, 6, 6). Afterwards, Dr. Sanders realized that he had been fooled and that he actually took part to the creation of an awful device that could even be the "mark of the Beast" described in St John's Revelations (see chapter 7 of this article). He became a believer afterwards, and he now goes around the world to warn people about that kind of technology...

Two different kinds of scanners designed to read the unique number of the subcutaneous microchip for humans and to link that number to an online database. On the left, the handheld model, on the right, the "portal" model...

Among its components, the microchip has a transmitter-receiver that sends a digital signal based on pulsions that transmits 85 data elements. It also transmits, at regular intervals, a digitally created signal. Used as a relay, this signal sends important informations, eventually being used in order to **localize** the implanted person through satellites, Earth bases and relay antennas. So the bearer of the microchip becomes a "living antenna" that can be spotted any time by satellite !

Dr. Sanders took part to 17 meetings around the world (including Brussels and Luxemburg) where those matters were discussed in the aim **of a worldwide government and of a worldwide currency**.

(Before laughing to the idea of a worldwide currency, look at the evolution in Europe, for instance : national currencies were replaced by a supranational currency – the euro. In 2009, an important step has been initiated, supposedly "to help solve the global economic crisis", but it was not much talked about in the media : the **first statements and the first steps towards a common worldwide currency** ! Basically, the G20 and the IMF had talked about the SDR (Special Drawing Right) to replace the dollar as the global reserve currency (cf. <https://internationalman.com/articles/one-world-currency/> ). Other leaders, worldwide, pleaded in favor of a global currency, failing to explain exactly what it should be. **A global currency named "euro dollar" was presented to the G8 participants** (cf. <http://www.24hgold.com/francais/actualite-or-argent-La-monnaie-du-Nouvel-Ordre-Mondial-presentee-au-G8.aspx?langue=fr&article=2180878962G10020> ). **The United Nations (UN) then proposed a global currency in gold (the oro) and in silver (the uno)** (cf. <http://beforeitsnews.com/alternative/2009/12/nwo-alert-global-currency-1763.html> ), **a currency which would probably be worthless, but which would allow the transition to "something else"**. This currency has been confirmed by the World Gold Council. As for the statements in favor of global governance, they are too numerous to include here. Follow the news and you will read or hear about many heads of state calling for this world government or for the New World Order).

Aware of the terrifying possibilities of the microchip, Carl Sanders, after finishing the project, decided to choose prevention and to **warn populations about the DANGERS that the subcutaneous microchip represents**. This microchip, thanks to miniaturization, isn't bigger than a grain of rice, contains 250.000 elements and can be implanted under the skin thanks to a hypodermic syringe and under the effects of a local anesthetic.

You can read Carl Sanders' website right here : <http://trumpetministries.net/> .

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

One of the first identification microchips was the TX1400L transponder made by the Destron company (U.S. patents 4730188 <https://patents.justia.com/patent/4730188> and 5041826 <https://patents.justia.com/patent/5041826>), originally designed for animals BUT whose commercial stated that “although it was designed to be injected in animals, this transponder may be used for other applications requiring an identification tag” !

Dr Daniel Man was the first to get a patent in the U.S.A. for a microchip used on humans (brevet U.S. patent 4706689 - cf. <https://patents.justia.com/patent/4706689> ). He wanted to find back missing or kidnapped **kids**...

Jack Dunlap, an entrepreneur from Arizona, proposed the KIDSCAN system. That device was supposed to track the implanted **children** whose chip would have sent signals to satellites... That system, fortunately, never saw the light of day... But right now, such systems do exist, including for children ! We're going to check this out in the sequel of this article.

It is important to notice that children **always** were a specific priority and target in the development of subcutaneous microchips for humans. The reason for this interest in children is developed in chapter 6 (How “they” will try to make people accept the microchip implant).

*Implanted under the skin with a hypodermic syringe and through a local anesthesia process...*

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### **3. THE SITUATION AS OF MAY 2013**

In a time when medicine uses micro-surgery and begins to use small “electronic pills” that take pictures of our inner body (regarding this topic, go to <https://www.medtronic.com/covidien/en-us/products/capsule-endoscopy.html> and get some information about the pill-camera named « PillCam ») ; in a time when people speak more and more about “nanotechnology” (a technology that is miniaturized to a microscopic or even molecular scale) ; now that the abortion pill is in sale in pharmacies, that contraceptive implants are used and that some genetic experiments on embryos were adopted ; now that cloning experiments have begun, that cellphones are massively marketed (those cellphones whose waves and frequency are dangerous for your health), what do we notice ?

- First of all, we were progressively brought to adopt barcodes, then microchips on our cards (smart cards : bank cards, social security cards, credit cards and even identity cards for some countries – the new Belgian identity card is just an example), and finally microchip implants placed under the skin of animals and pets and called “transponders” (let’s notice that in some countries, those chip implants for animals have already become **mandatory**).

The question is : what will be the next step ?

- Then, we now have performing orientation or localization systems that work thanks to satellites (including relay antennas, the GPS – Global Positioning System – and the European Galileo satellite positioning system , for instance).

- Our discoveries regarding chemical, bacteriological or nuclear weapons progressed.

- Governmental systems and their institutions went over the concept of nation, and are more and more based on international groups (U.N., W.T.O., O.E.C.D., I.M.F., the world bank etc.), and these international groups turn more and more into worldwide organizations.

- The economy prevails on lots of things and metamorphoses itself into globalization, with the hegemony of multinational companies whose power and capitals are so important that they’re sometimes bigger than those of some countries.

- Medias have a huge impact on populations but they often hide, distort or censor vital informations ; transmission and information networks are faster than ever.

But what’s up regarding the microchip ?

Well, today, the microchip is part of what is called the “RFID” technologies (for Radio Frequency Identification Devices), or ICT implants (ICT = Internet and Communication Technologies).

Technology now goes beyond subcutaneous chips, and we’re led to more horrors and inhumanity with **neural chips and brainchips** !

Talking about the subcutaneous chip for humans... how does it work, today ?

This chip varies in size and is slightly larger or smaller than a grain of rice. It is usually implanted under local anesthesia using a hypodermic syringe, and into the needle of that syringe lies a RFID chip implant. The chip is almost always passive. When a handheld scanner is dragged over the location where the chip was implanted, it “wakes up” the chip, and the chip returns an information : in this case, a unique 16-digit number. Then, connecting oneself to a special website that contains a **centralized database** and entering the 16-digit number, we can have access to the file of the implanted person. Without this centralized database, the system is unusable, at least for now...

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

In the United States of America, since the end of 2002, it's possible for any citizen to get the microchip implant for the "modest" amount of 200 dollars (+ a monthly fee) ! Since 2004, the company named A.D.S. (Applied Digital Solutions Inc.), through its subsidiary company "Verichip Corp.", has been authorized by the American Food and Drug Administration, to market its revolting microchip implant for humans. The approval of this subcutaneous chip by the FDA is available here: <http://www.mediafire.com/?mqjrmgkzozl>. Since then, VeriChip Corporation became VeriTeQ and then Jamm Technologies, so this chip implant is now marketed by Jamm Technologies (before this company changes name again within a few months or years, which has become, apparently, a sad habit). If you believe that this is a hoax, please check out the following page : <https://www.jammtech.co/q-inside-safety-technology> .

"But where's the problem ?" could you think, since those good people chose the option of being chipped in all liberty ?

Well, the problem lies here : people do not have all the necessary information to make an informed decision, and the mass media's propaganda only present them with the so-called "positive" aspects of the implants. Dangers are always hidden or minimized. In addition, there are law projects that passed through the American Congress and that will allow the injection of the microchip implant to children from birth, under so-called "identification purposes". Moreover, the president of the U.S.A., under Section 100 of the 1986 Immigration Control Act, has the power to decide ANY kind of identification deemed necessary (including a microchip that would be implanted). The microchip implant has already been used during the Gulf War in August 1991, and has already been tested and implemented on soldiers, government officials and corporate staff.

In Mexico City, justice officials were implanted with subcutaneous chips (cf. [http://www.nbcnews.com/id/5439055/ns/technology\\_and\\_science-tech\\_and\\_gadgets/t/microchips-implanted-mexican-officials/#.XwIoR-fgrIU](http://www.nbcnews.com/id/5439055/ns/technology_and_science-tech_and_gadgets/t/microchips-implanted-mexican-officials/#.XwIoR-fgrIU) or [https://www.mediafire.com/file/2rhwe4rw7lfb1s3/Microchips implanted in Mexican official s.doc/file](https://www.mediafire.com/file/2rhwe4rw7lfb1s3/Microchips_implanted_in_Mexican_officials.doc/file)).

Mexico decided that workers and visitors from Guatemala and Belize should be chipped from March 2008 (see <http://www.banderasnews.com/0712/nr-biochipcontrol.htm> ) ! And that's just the beginning... So the danger is very real now. It is high time to react fiercely and to make this chip implant illegal and totally banned !

Here's an even more serious issue : in January 2008, the criminal government of the United Kingdom decided to chip prisoners (cf. <https://www.independent.co.uk/news/uk/politics/prisoners-to-be-chipped-like-dogs-769977.html> ) or [https://www.mediafire.com/file/sebc7oi8nhg8ow0/UK Prisoners %27to be chipped like dogs%27.doc/file](https://www.mediafire.com/file/sebc7oi8nhg8ow0/UK_Prisoners_%27to_be_chipped_like_dogs%27.doc/file) ) ! In other words, chipping could become mandatory ! And this is all happening here, in Europe !

Here is another part of the problem : we have **received crucial information : RFID chip implants are carcinogenic !** This has been revealed by several university studies done on laboratory animals. These animals (rats, mice, and dogs) developed malignant tumors at the very site of the implantation and all around the chip, and most of them died from it ! The American organization CASPIAN released a 52-page report on the university studies that were carried out, proving that the carcinogenic nature of RFID chip implants is a reality indeed. **This report can be viewed here :** <http://www.mediafire.com/file/bhq8601j6fh8rso/Microchip-cancer-full-paper.pdf/file> . Consequently, CASPIAN called for RFID chip implants to be completely abandoned in humans, and for mandatory animal chipping programs to be abolished too ! We also know the reason why these implants are carcinogenic : **radiofrequency waves, used in ANY RFID DEVICE, break the cells' DNA helixes, inducing cellular mutation and resulting in the apparition of tumors** (see <http://www.next-up.org/pdf/ReuterEnergieDesRadioFrEquencesEndommageADN20122004DocAssociesInterviewVideoPrAdlkofer.pdf> or <https://www.mediafire.com/file/yzn1td2d3q4mnl/ReuterEnergieides.RadioDocFrEnergyDocAassociesInterviewVideoPrAdlkofer.pdf> ).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

The other problem is that these people who get chipped are often very poorly informed, and often ignore the incredible risks that implantable chips pose to humans. They are only given the alleged "benefits" of the chip before being implanted.

Still in the USA, ex-Attorney general John Ashcroft (who's also an army general) allowed the development of "internment camps for civilians". There are now hundreds of these camps on U.S. soil, and they're called the FEMA camps. In a video titled "Gulag USA" (cf. <https://www.youtube.com/watch?v=LC5x5JntiSA> ou [https://www.mediafire.com/file/9cdf83cerwv7vw/Gulag\\_USA\\_Concentration\\_Camps\\_in\\_America.mp4/file](https://www.mediafire.com/file/9cdf83cerwv7vw/Gulag_USA_Concentration_Camps_in_America.mp4/file)), it was proved that these camps are full of torture devices, but also that there are plans to use devices to implant prisoners with microchips ! During World War II, Nazis would "mark" prisoners at the entrance of the camps thanks to tattoos... Nowadays, the USA, in these camps for civilians, would mark the prisoners (civilians!) with subcutaneous microchips in order to identify them and to track them !

Even scarier : the independent US media has reported the existence of a project that would make the "chipping" of homeless people **mandatory** in 5 states, including New York and California ! So we're going to see this chip implants for humans become mandatory, starting with the weaker parts of the population ! The pretext that was invoked to reach this goal made a mix between homelessness and criminality (the homeless are "easily criminalized") !

In October 2004, the Food and Drug Administration (FDA – the official body whose mission is to investigate all drugs and medical devices, and to validate or refute them for the the U.S. market) gave the authorization for the subcutaneous RFID chip for humans named "VeriChip" to be used in U.S. hospitals "for medical purposes", even though the FDA recognized that this disgusting implant represents dangers for people's health (see Chapter 5: The true dangers of the subcutaneous microchip) !

Question: who, during his/her lifetime, doesn't go to the hospital at least once ? If one begins to "chip" sick people in hospitals for so-called "medical monitoring" purposes, the whole population will be chipped sooner or later !

The Food and Drug Administration has definitively classified the verichip as a "class II medical device requiring special controls" !

American "intellectuals" and CEO's also began to be "chipped".

And the use of chip implants spreads more and more in American hospitals, despite the fact they're carcinogenic ! For instance, the Boston-based Beth Israel Deaconess Medical Center installed in its emergency room verichip scanners/readers and gets ready to chip patients ! **Hundreds** of American hospitals and healthcare facilities **already** adopted the microchip implant!

Still in the U.S.A., a bus called the "Chipmobile" drove through different states, trying to encourage people to get chipped (cf. <https://www.jp-petit.org/BIG%20BROTHER/chipmobile.htm>) ! And whenever they found a place where plenty of unaware people were interested in getting chipped, the Verichip Corporation people built a verichip center to spread the chip and its influence !

Here are some more alarming news from the usa : a former wisconsin governor and ex-secretary of the U.S. Department of Health and Human Services under George W. Bush, Tommy Thompson, joined the Applied Digital Solutions' board of directors (ADS is the parent company of PositiveID, formerly known as Verichip Corp., and currently known as Jamm Technologies) and promised to get "chipped" very soon. This sinister man took part in the American presidential election of 2008, and to this day, he still refused to get chipped ; the dangers of the chip are probably what held him back (cf. <https://rense.com/general69/tommy.htm>). **But the most horrible thing is that he proposed a bill (July 2005). And that bill, if adopted, would allow the chipping of all U.S. citizens** (cf. [https://www.nextinpact.com/archive/RFID\\_projet\\_de\\_loi\\_un\\_implant\\_pour\\_chaque\\_citoyen.htm](https://www.nextinpact.com/archive/RFID_projet_de_loi_un_implant_pour_chaque_citoyen.htm) and [https://www.huffpost.com/entry/tommy-thompson-wanted-to-implant-chips\\_n\\_863200?qucounter=1&quce\\_referrer=aHR0cHM6Ly93d3cucG9saXRpZmFjdC5jb20vZmFjdGN0ZWNRcy8yMDExL21heS8yMi9taWN0eYVWVslW1jLWF1bGlmZi9odWZmaW5ndG9uLXBvc3](https://www.huffpost.com/entry/tommy-thompson-wanted-to-implant-chips_n_863200?qucounter=1&quce_referrer=aHR0cHM6Ly93d3cucG9saXRpZmFjdC5jb20vZmFjdGN0ZWNRcy8yMDExL21heS8yMi9taWN0eYVWVslW1jLWF1bGlmZi9odWZmaW5ndG9uLXBvc3)

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

On pages 2056 and 2057 of this 2310 pages bill, section 2521, the creation of a « **National Medical Device Registry** » can be found, and we can also notice the presence of « **a class II device that is implantable, life-supporting, or life-sustaining** » :

### **SEC. 2521. NATIONAL MEDICAL DEVICE REGISTRY.**

**(a) REGISTRY.—**

**(1) IN GENERAL.—**Section 519 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360i) is amended—

**(A) by redesignating subsection (g) as subsection (h); and**

**(B) by inserting after subsection (f) the following:**

**« National Medical Device Registry (g)(1) The Secretary shall establish a national medical device registry (in this subsection referred to as the « registry ») to facilitate analysis of postmarket safety and outcomes data on each device that—**

**(A) is or has been used in or on a patient; and**

**(B) is— (i) A CLASS III DEVICE; OR (ii) A CLASS II DEVICE THAT IS IMPLANTABLE, LIFE-SUPPORTING, OR LIFE-SUSTAINING**

**(2) In developing the registry, the Secretary shall, in consultation with the Commissioner of Food and Drugs, the Administrator of the Centers for Medicare & Medicaid Services, the head of the Office of the National Coordinator for Health Information Technology, and the Secretary of Veterans Affairs, determine the best methods for—**

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

(A) including in the registry, in a manner consistent with subsection (f), appropriate information **to identify** each device described in paragraph (1) by type, model, and serial number or other **unique identifier** ;

(B) validating methods for analyzing patient safety and outcomes data from multiple sources and **for linking such data with the information included in the registry** as described in subparagraph (A), including, to the extent feasible, use of—

(i) data provided to the Secretary under other provisions of this chapter; and

(ii) information from public and private sources identified under paragraph (3) ;

As a reminder, the VeriChip chip implant, for example, has definitely been recognized by the U.S. Food and Drug Administration (FDA) as a "class II medical device" (cf. [http://www.accessdata.fda.gov/cdrh\\_docs/pdf3/k033440.pdf](http://www.accessdata.fda.gov/cdrh_docs/pdf3/k033440.pdf) et <https://www.mediafire.com/file/7f9zyz6tgxnypj/k033440.pdf/file> ) !

In may 2006, **Colombian president Alvaro Uribe proposed**, in order to make sure that all Colombian workers who are leaving Colombia to work on a seasonal basis in the USA would actually come back to Colombia, **that these workers would be chipped in order to track them** and in order to be able to spot them and catch them in case they would try to stay in the USA illegally (cf. <https://www.homelandstupidity.us/2006/05/05/specter-uribe-wants-rfid-for-migrant-workers/> ) ! **Since then, Mexico tried to make the chip mandatory (by march 2008) for workers and visitors from Guatemala and Belize !** (Cf. <http://www.banderasnews.com/0712/nr-biochipcontrol.htm> ).

The USA picked up this concept : there are now talks to **chip immigrant workers** "to make sure that they go back to their country and that they don't stay in the USA as illegal immigrants" ! (Cf. <https://www.networkcomputing.com/data-centers/rfid-company-let-us-implant-chips-immigrants> )

PositiveID discussed with Washington in order to be able to chip American soldiers (the chip would then replace "dogtags" - these medallions which show the specific data of each soldier).

And a project planning to chip all American airport employees is on its way before the American Congress ! The paranoid security measures taken since 9/11 "against terrorism" lead to the so-called "necessity" to control and track all the members of the airport's personnel...

**The first "mass chippings" without the personal consentment of the implantee (which means MANDATORY chippings !), were made in 2007 on 200 Alzheimer patients, in the infect "care" center named «Alzheimer's Community Care», in West Palm Beach, Florida** (cf. <http://healthinformationtech.blogspot.be/2007/11/free-microchips-to-alzheimers-patients.html>)! As some patients didn't have the mental abilities to knowingly accept or refuse these implants, members of their family took the decision FOR THEM !

**Despite** the protestations of activists, this scandalous "care" center (which is run by true nazis) decided to chip those 200 Alzheimer patients !

But the USA is not the only country where the microchip makes ravages, and right now we can even say that all parts of the world are concerned by this terrible scourge! See what comes hereafter...

A little while ago, Applied Digital Solutions (the infamous parent company that markets the subcutaneous microchip for humans) signed commercial agreements for the «Verichip» with new countries. This is how Mexico, South Korea, Venezuela, Argentina, Colombia, the Caribbean Islands, the Dominican Republic, Puerto Rico, Paraguay, Uruguay, Brazil, Chile, Central America

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

and South Africa were contaminated in just several months by the phenomenon of the subcutaneous microchip. In Mexico and in Brazil, some kids are already implanted !

And Malaysia bought microchips (of a different brand than those of Applied Digital Solutions) that can be used in different ways, including under the skin, to spot and identify people...

Malaysia also adopted the verichip/Health Link; some Asian countries, indeed, signed an agreement with Applied Digital Solutions and Verichip Corp./PositiveID/VeriteQ/Jamm Technologies for the purchase and distribution, within 3 years, of 65,825 verichips/Health Links and 4,687 scanners minimum ! These countries are Malaysia, Indonesia, Thailand and South Korea !

Canada, through British Columbia, has been contaminated as well : Applied Digital Solutions, indeed, submitted a bid to buy a British Columbia-based company. This company based in British Columbia is called EXI Wireless Inc. This purchase added more or less 200 retailers and distributors to Verichip Corporation/PositiveID/VeriteQ/Jamm Technologies ! The purpose, which is clearly admitted, is to spread and distribute as widely as possible the verichip in American and Canadian hospitals !

And, from now on, Africa, Singapore, Taiwan and Saudi Arabia also have their authorized Verichip/PositiveID/VeriteQ/Jamm Technologies distributor !

In November 2003, during a safety fair in Paris, Applied Digital Solutions' boss made a sensational statement, revealing that the verichip could be the "ultimate means of protection" and that it could even bring people to a **cashless society** ! (Cf. <https://www.businesswire.com/news/home/20031121005207/en/Applied-Digital-Solutions-CEO-Announces-VeriPay-Secure> or [https://www.mediafire.com/file/cwug5dpobnrxnkdk/Applied\\_Digital\\_Solutions%27\\_CEO\\_Announces\\_%AB\\_VeriPay\\_%BB\\_Secure%2C\\_Subdermal\\_Solution\\_for\\_Payment\\_and\\_Credit\\_Transactions\\_at\\_ID\\_World\\_2003\\_in\\_Paris.doc/file](https://www.mediafire.com/file/cwug5dpobnrxnkdk/Applied_Digital_Solutions%27_CEO_Announces_%AB_VeriPay_%BB_Secure%2C_Subdermal_Solution_for_Payment_and_Credit_Transactions_at_ID_World_2003_in_Paris.doc/file) ). So it seems that the purpose to use the subcutaneous microchip for humans as a "worldwide currency", which Carl W. Sanders warned us about, is confirmed !

After the earthquakes and tsunami that ravaged Asia at the end of 2004, some corpses were "chipped" for later identification, and also in order to "avoid epidemics" and to allow the harshly struck families not to suffer even more, knowing that one of theirs would "rest in an anonymous grave". Actually, these arguments are humanistic or medical pretexts given to present those chips as "useful", "convenient" and "unavoidable" to the eye of the public opinion. The chipping of corpses was also implemented in the USA after the Katrina hurricane disaster. (Cf. [http://www.nbcnews.com/id/9514138/ns/technology\\_and\\_science-tech\\_and\\_gadgets/t/rfid-chips-help-track-katrina-dead/#.XwQ6Guc6-Uk](http://www.nbcnews.com/id/9514138/ns/technology_and_science-tech_and_gadgets/t/rfid-chips-help-track-katrina-dead/#.XwQ6Guc6-Uk) ).

Finally, regarding Europe, Applied Digital Solutions found a distributor in... Spain (where "terrorist" attacks happened in March 2004... a "coincidence" ?) ; in the United Kingdom (U.S.A.'s great friend), the decision was taken to follow the movement of worldwide dictatorship, since Applied Digital Solutions, via its fully owned subsidiary Verichip Corp/PositiveID/VeriteQ/Jamm Technologies, signed commercial agreements with a London-based company, Surge IT Solutions, for the distribution of the verichip/Health Link : 9,000 subcutaneous microchips for humans and 110 scanners were ordered !

People are ALSO beginning to be chipped in some British hospitals (just like in the USA, and while these chips are carcinogenic !), and it must be noticed that the United Kingdom is the ONLY European country that has 2 different subcutaneous microchips for humans that are used and implanted so far : VeriChip Corp.'s "verichip", and Trovan's ID100IH !

Switzerland and Russia also joined the "microchip countries", ordering a certain amount of "verichip" microchip implants and of "verichip reader" scanners; the Netherlands, Italy and Germany (September 2005 for Germany) were also hit by this scourge, and France is a new

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

target ! So, Europe is not spared, and the subcutaneous microchip for humans is already present on European ground !

**All in all, more than 30 countries around the world (including European countries) are already touched by the scourge of the microchip implant ! All of this confirms the "worldwide plan" that Carl W. Sanders denounced a long time ago !**

Worse: in Barcelona, Spain, a nightclub company called "Baja Beach Club" uses the verichip as an **electronic wallet** and as a subscription for its faithful customers and for its «V.I.P.» members. (Cf. <https://www.theguardian.com/technology/2004/jun/10/onlinesupplement1>). And the owner of this nightclub company encourages people to get chipped ! Since then, June the verichip/Health Link was also proposed in the Baja Beach Club in Rotterdam, in the Netherlands (cf. <https://www.nextinpact.com/archive/28016-Les-puces-RFID-sincrustent-un-peu-plus-au-qu.htm> ). It had even been spoken of a new Baja Beach Club in Cologne (Köln, Germany) where the verichip would have been proposed too... A bar, named the Bar Soba, in Glasgow, U.K. (the United Kingdom, let's not forget it, has its official verichip distributor), also proposes the verichip to his regulars (cf. <https://www.telegraph.co.uk/news/uknews/4194899/Microchip-to-allow-wallet-free-drinking.html> ), and its boss, what a "coincidence", also got chipped... at the Baja Beach Club, in Barcelona !

Some fans of new technologies, in the USA but also in the UK, begin to be chipped, even sometimes with microchips destined to animals (!), to automatically open car doors or to unlock their computer without using any password... but they don't take into account - or they're not aware of - the terrible risks and dangers of those chips !

Could the verichip become a "fashion gadget" ? Everything is done in order to do so...

In Italy, in April 2004, the verichip/Health Link was introduced... in a hospital, in Rome, and it received an award in March 2005 !

In France, after heat waves that caused the death of hundreds of elderly people, the government foresaw, for the elderly residing in nursing homes, RFID chip bracelets or... a verichip implant ! And Verichip Corporation planned to find, by the end of 2005, a reliable distributor for France...

Always in Europe, the development of transponders (= subcutaneous microchips) for animals and the development of electronic identity cards with chips – especially as a consequence of the so-called "terrorist peril" that threatens us all and which is nothing but a pretext -, is only one more step leading us to chip implants, and it shows us that we, humans, could follow the same way than the (chipped) animals very soon, especially now that the subcutaneous microchip for humans is already on our European ground !

In late 2009, the ignoble VeriChip corporation, to better cover their tracks and to attempt to rebuild a good reputation, renamed its chip the "Health Link" (a shame when you know that RFID chip implants are carcinogenic and not "healthy" at all !). In November 2009, we learned that VeriChip Corporation had merged with a company called Steel Vault Corporation (a company that takes care of... CREDIT MONITORING – so we come slowly to financial applications – and of identity theft prevention) and **tried to gain a good reputation in renaming itself "PositiveID"** ("positive identity", a completely false and deceiving name, since the identification proposed by this company actually means slavery, ruin of your health and total control of your body and mind, which is anything but positive) ! Finally, **the last company to have been created in this diabolical consortium is called Jamm Technologies** (cf. <https://www.jammtech.co/> ). All these companies are working on the subcutaneous RFID chip, or on systems that can be related to it !

**The scumbags at VeriChip/VeriTeQ/Jamm Technologies have also tried to sell their carcinogenic chip implant – which allows behavioral control – to Europe during the ID World International Congress, which was held in Milano, Italy, November 3-5, 2009 ! So this consortium is trying to globalize the chip and to conquer the European market (cf.**

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

<https://www.secureidnews.com/news-item/verichip-to-present-glucose-sensing-chip-at-id-world-congress/> ) !

Several years ago, in 2005, the « European ethics group for sciences and new technologies » gave the European commission a report on “ICT implants” (ICT = Information and Communication Technologies), and the subcutaneous microchip is part of them (cf. <http://www.mediafire.com/?t0zljzddny>).

**In this report, the “ethics” group recognizes the dangers of the implant regarding privacy, but also regarding “human identity” and the “individual subjectivity” (so, the influence of these implants on free-agency and on behavioural control is recognized !)** ! But this “ethics” group also recognizes the “beneficial” use of the microchip in the medical sector ! And in non-medical sectors, it considers that if the legislator is in a situation obliging him to use that technology **for surveillance or more** (that kind of extreme situation is, of course, not developed or described in the report), then the use of this kind of implant should be authorized !

On a still scarier note, this report tells us about **cerebral implants** and speaks about “human improvements”, especially for people having light genetic malformations as well as diseases or deficiencies and other abnormalities that are not visible at first sight ! Are we back in the Nazis era, with their grotesque “superman” (“Übermensch”) theory and the elimination or exploitation of the weak, the handicapped etc. ?

The G29 (an advisory committee of the European commission) released a report on RFID. This report, in substance, recognizes the dangers of RFID for privacy, **but recommends no action or regulation before misuses are committed !**

The European commission took the decision **to not develop any regulation** regarding RFID technology. It’s afraid that the huge **profits** that are planned on a industrial level could be threatened by this kind of regulation! The problem is that RFID is a highly liberticide technology! Between the liberties of European citizens and the profits of the enterprises, it seems that the European commission took its decision... a decision that will be harmful to the rights and liberties of the European citizens !

So Europe is more than ever threatened by this liberticide and hyper dangerous technology !

Important question: is Applied Digital Solutions/VeriChip Corp./PositiveID/VeriTeQJamm Technologies’ subcutaneous chip the **only** microchip implant for humans ?

**NO**, absolutely not ! Any idea (good or bad) bringing money on a potentially very juicy market, is often followed by different concurrent companies (in spite of any morality and ethics). So we currently witness other chip producing companies adopting those bloody microchip implants for humans !

For example, the European firm TROVAN also markets a subcutaneous microchip (see <http://www.mediafire.com/?nn1tmiywez>). They have two models : the Trovan ID 100 IH, and Trovan ID 100 IH/A. The difference between these models is not specified, but maybe that one is a “passive” model, while the other one is an “active” model... Please note : the Trovan company is now hiding the existence of these chip implants for humans which give it a bad reputation, and which can no longer be found on its website. Nonetheless, these subcutaneous chips for humans do exist, as the company’s document, released a few years ago and viewable thanks to the link above, proves to you.

The worst is that Trovan already has many official distributors ! Indeed, Trovan products are already used in 45 countries, and have customers in 60 nations (cf. <https://www.trovan.com/en/About/WhyTrovan> ) !

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

Another company selling these subcutaneous chips is Dangerous Things (<https://dangerousthings.com> ). So, we can see that this technology is not limited to a single firm...

The Malaysian microchip which, among other things, can be used subcutaneously in humans, is called the "MM Chip". It is produced by the Japanese company named FEC Inc., and is supported by the Malaysian government (see <https://www.zdnet.com/article/country-tests-id-chips-for-body-implants/> ).

Finally, another association also sells subcutaneous chips. The latter is called "I am robot"... Quite a program ! (Cf. <https://chip-implants.com/>).

Naturally, the dangers, as well as the possible applications and the numerous risks and drifts of all these subcutaneous microchips, are the same !

In Belgium, in June 2006, after the kidnapping and the murder of 2 little girls, Stacy and Nathalie, and after the rape of one of them, a Belgian deputy and neurosurgeon, Mr Brotchi, introduced a bill which would allow the implantation of... pedophiles and sexual abusers with the extremely dangerous chip implants for humans (cf. <http://www.indymedia.be/index.html%3Fq=node%252F3390.html> and <http://archives.lesoir.be/justice-deux-nouvelles-propositions-de-loi-du-mr-pour-t-20061201-007A6Z.html?queryand=%22brotchi%22+%2B%22puce%22&firstHit=0&by=10&when=-1&begYear=1989&begMonth=01&begDay=01&endYear=2013&endMonth=05&endDay=06&sort=datedesc&rub=TOUT&pos=4&all=6&nav=1> ) ! This bill is currently frozen, and is probably awaiting the "thaw" in order to come into effect ! Once again, they were playing on people's emotions, taking any crime as a pretext and as an excuse to implement the chip. This is obviously the beginning of a long list and of a slippery slope that leads to tyranny, and we could soon see all criminals, lawbreakers and finally ALL citizens being implanted with these subcutaneous, neural and cerebral chips that allow mind control ! This is so true that the Belgian deputy Jacques Brotchi already admitted, in an interview given in the 28<sup>th</sup> of July 2006 issue of the « Le Vif/L'Express » magazine, that "these implants will be developed in the domain of health and in that of security". So, the target is not only the criminals, but **the whole population** ! The United Kingdom also has such a plan to "chip" pedophiles...

Let us now study neural chips and brainchips.

#### **4. NEURAL CHIPS, BRAINCHIPS AND THE "BRAIN MACHINE INTERFACE PROGRAM"**

The existence of **neural chips and brainchips, which are directly implanted into the nerves or brain**, is of paramount importance. They're sometimes named "brain electrodes" or "neural electrodes".

We can therefore list the infamous "brain-machine interface program" project developed by the DARPA (U.S. Department of Defense) or the "Activa Parkinson's Control Therapy" developed by Medtronic, or the "Braingate" and "NeuroPort" systems developed by Cyberkinetics. We can also mention the very dangerous MMEA (Multiple micro electrodes array) brainchip. These chips, of course, allow a TOTAL mental, behavioral and emotional control, and allow to cause pleasure or... PAIN to the poor implanted person, at the whim of the person who sends waves from a ground station! These chips are not only an effective means of population control, but also a terrible and dangerous WEAPON!

The first experiments of this kind took place in the USA in the 1950s and 1960s, as part of shameful, secret and Nazi-worthy CIA programs (Project Monarch and Project MK Ultra - cf. <https://vigilantcitizen.com/hidden-knowledge/origins-and-techniques-of-monarch-mind-control/> ). While always remaining in the military environment, we can also talk about the ignoble "brain machine interface program" project developed by D.A.R.P.A. (an US Department of Defense's agency) or, in the civilian sector, the "Activa Parkinson's Control Therapy" developed by Medtronic, or the "Braingate" and "Neuroport" systems developed by Cyberkinetics. We can also mention the very dangerous M.M.E.A. brainchip (multiple micro electrodes array). **These chips, of course, allow a TOTAL mental, behavioural and emotional control, and can cause pleasure or... PAIN to the poor implanted person, at the whim of the person who sends waves from a ground station ! These chips are not only an effective means of population control, but also a terrible and dangerous WEAPON !**

These neural chips and brainchips have **already** been used in France and Belgium on patients with Parkinson's disease and Alzheimer's disease to reduce some disturbing symptoms (note that this is in **no way** a "cure" ! These chips do not allow to heal the patient, they only suppress uncomfortable symptoms). An increasing number of hospitals are using and implanting these abominations, without it seeming to shock anyone. A real shame !

I must also say a word about the inhuman project of the DARPA (Defense Advanced Research Projects Agency, a U.S. defense body, i.e. a military agency) aimed to chain the human mind and body through a brainchip : this project, based on microchips implanted in the brain, in the nerves, on the neurons or on soft tissues of the body (!), is called "Brain Machine Interface Program". It allows, thanks to **bidirectional brainchips**, to somehow remote control (like remote controlled cars !) the implanted animals and humans ; this infamous method also provides the basis for the development of "telepathy" and "telekinesis" (= transhumanist "enhancement" of the human being's powers) through these chips which act as relays.

In reality, this invention allows a human being to act on the outer world thanks to microchips and micro-electrodes, **but it also allows an "outside" source to act directly on the individual and to control him/her !**

**This technological horror spells the end of free will, and it suppresses any self control as well, including control on one's thoughts and movements ! The individual becomes a puppet, a zombie whose movements, emotions, feelings... are controlled from the outside ! And given the very sensitive areas where this device is placed (on the brain's neurons, or on nerves), removing the implant would be very dangerous, and would require the intervention of major surgery. It could even cause irreversible damage ! So, the individual could not remove this implant by himself anymore... This is what is now called "technological possession" of the individual.**

Recently, volunteer patients with Parkinson's disease were used as guinea pigs in these revolting experiments. Everything, of course, was done under so-called "humanist" pretenses

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

aimed to “perform tests in order to help patients recover from their illness” or to “improve their daily lives” ... Do not forget though that the DARPA is a military defense organization; therefore, its projects are not based on humanism or on the good that is done to your neighbour, unlike what the propaganda of the regime is trying to let us think naively ! Try these words (Brain Machine Interface Program) into a search engine, and you will find websites about this dreadful program.

Other neural chips or brainchips already exist. Let’s list, for instance, the Braingate system developed by Cyberkinetics (cf. <http://www.cyberkineticsinc.com/>), or the awful MMEA chip (Multiple micro electrode array – see <http://philadelphians.50megs.com/MMEA.html> ).

These hyper dangerous **brainchips** which make it possible to control the behavior, the emotions, the feelings, and even the actions of implanted individuals, are now trivialized in a vile way, and presented by the mass media propaganda as a way for humans to be “cured”, to acquire conveniences and even to gain “new powers” such as telepathy, for example (see <http://www.dailymail.co.uk/sciencetech/article-1210750/The-telepathy-chip-lets-control-computers-using-power-thought.html>). This is a revival of the Nazi concept of the **Urbemensch** (superman), and it’s promoted by the **transhumanists**, these mad scientists who want to modify themselves physically through technology in order to become “post-humans” or supermen, or even to achieve “immortality” !

**The year 2020 was confirmed as a deadline for the implementation of chip implants, including brainchips, which are promoted by infamous companies such as Intel** (cf. <https://www.computerworld.com/article/2521888/intel--chips-in-brains-will-control-computers-by-2020.html> or [https://www.mediafire.com/file/ci8snfnxq83fb7o/Intel Chips in brain will control computers by 2020.doc/file](https://www.mediafire.com/file/ci8snfnxq83fb7o/Intel+Chips+in+brain+will+control+computers+by+2020.doc/file) ) ! The technique is well known : you try to entice naive persons, showing them nothing but the practicality and the convenience of brainchips, while “forgetting” to tell them about their dangerous and liberticide aspects. We only have a few years left to react and to avoid the worst !

In order to know a bit more about the brain machine interface program and the MMEA brainchip, I recommend this well documented file (in 5 parts) : <http://www.angelfire.com/d20/philadelphians/MMEA.html> .

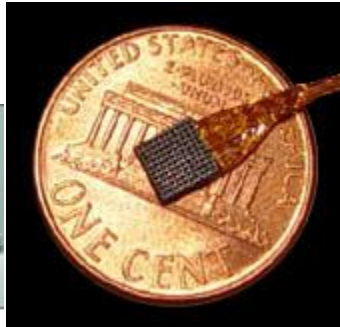

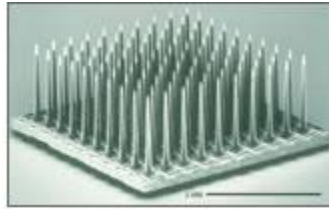

*A chip in the brain, that will turn you into a slave, and that you will not be able to remove anymore... Are you interested ?*

### The brainchips’ operating principle

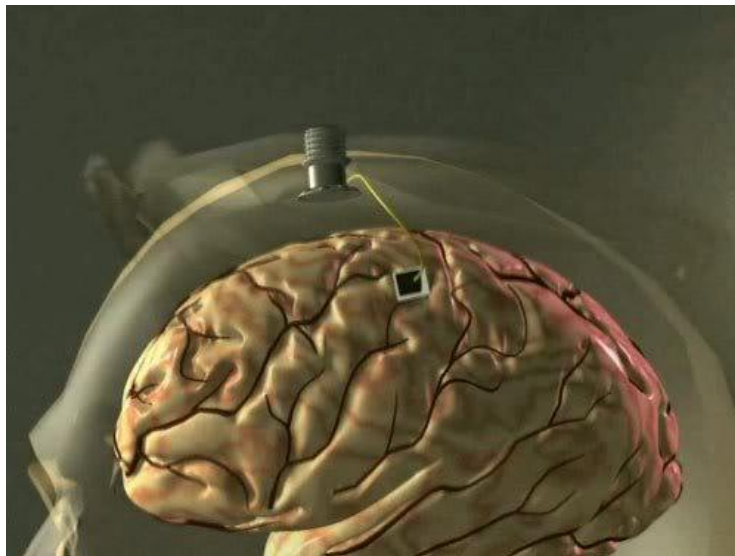

The general principle is quite simple: the person undergoes a neurosurgery operation (heavy and delicate operation). During surgery, he/she’s implanted with a chip, in the cortex and in the brain surface. The chip contains an array of microelectrodes. This chip is usually squared. It’s only a few millimeters wide, it’s placed on the brain and it contains a series of mini “spikes” or needles which are inserted in the cortex (see below).

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

An electric wire comes out of this chip and is connected to a wireless transceiver (Wi-Fi or Bluetooth). See the illustration below.

*Brainchip: the mark in the forehead...*

A transceiver is installed on either side of the skull (outside AND inside the skull). This transceiver is used to send orders to the outside – the orders are sent in the form of waves -, **but also to receive orders from the outside** – so there is bidirectionality). Small note : “wireless” systems are harmful to health, and this is especially true for Wi-Fi and Bluetooth systems (see <http://www.next-up.org/France/Wifi.php#1>, for example).

The implanted person can then issue orders to the outside from her brain : the chip records the orders and sends them, through the wire, to the transceiver which transmits the waves outward. **But the outer world can also send waves coming to the transceiver. Then the waves reach the chip through the electric wire and activate this chip which is located in the brain ! This allows to send information that may – depending on the location where the chip is implanted – cause seizures, produce movements, create visual or audio hallucinations, cause a rise or a decrease in the production of hormones – which will have an impact on the behavior -, or even activate the center of pain in the brain (= torture) ! And the worst is that there is no way to fight against these orders coming from the outside ! Our will can do nothing against it : the orders arrive and are transmitted in an unstoppable, mechanical and physical process that activates the brain !**

Despite these terrible dangers, the propaganda goes on. It is so true that, in the USA, there’s a center aimed **to promote neural and brainchip implants** <https://grantome.com/grant/NIH/P41-EB002030-15>.

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

From now on, it is even possible to buy equipment (brain electrodes etc.) online :  
<https://nnxbrainhacker.com/> .

Maybe you think that we're safe in Europe, protected from these brainchips... it's a serious mistake. The "Institut de la Moelle et du Cerveau" ("Institute of Spine and Brain") is under construction in Paris, at the La Pitié-Salpêtrière hospital. It will be used, among other things, to implant the first brainchips and to implement "deep brain stimulation" programs or Brain Machine Interfaces – cf. <https://icm-institute.org/fr/> , <https://icm-institute.org/fr/?s=brain+machine+interface&submit.x=0&submit.y=0> and <https://icm-institute.org/fr/?s=stimulation+c%C3%A9r%C3%A9brale&submit.x=0&submit.y=0> ! In late 2008, we learned that more than 16 patients with obsessive compulsive disorders had already been chipped in the brain throughout France and in various hospitals under so-called "medical" purposes (cf. <https://www.parismatch.com/Actu/Sante/Contre-les-Toc-la-stimulation-cerebrale-135865> ) !

Finally, those who still think that the very serious kind of thing we are talking about here is only "chimeric" and spread by "conspiracy theorists", should open their eyes. Film director Aaron Russo, in an interview, admitted that he talked with Nicholas Rockefeller (a member of the so-called global "elite") who told him that the ultimate goal was, for the "elite", to have a population which is fully controlled and microchipped, as well as reaching a halving of the world's population (see <https://www.youtube.com/watch?v=owXtjrWACLg> or [https://www.mediafire.com/file/xzsvh75pw1k94gf/Aaron\\_Russo\\_-\\_L%27interview\\_en\\_fran%27ais\\_%282007%29.mp4/file](https://www.mediafire.com/file/xzsvh75pw1k94gf/Aaron_Russo_-_L%27interview_en_fran%27ais_%282007%29.mp4/file) ) ! This is a very serious warning not to be taken lightly ...

However, if this warning was not clear enough, here's what Jose Delgado (a mad-scientist worthy of Frankenstein and Mengele, and who developed a brainchip for humans called "stimoceiver"), clearly stated :

*"We need a program of psychosurgery for political control of our society. The purpose is physical control of the mind. Everyone who deviates from the given norm can be surgically mutilated. ... The individual may think that the most important reality is his own existence, but this is only his personal point of view. This lacks historical perspective. Man does not have the right to develop his own mind. This kind of liberal orientation has great appeal. We must electronically control the brain. Someday armies and generals will be controlled by electric stimulation of the brain."*

Such were Dr. Jose Delgado's statements as they appeared in the February 24, 1974 issue of Congressional Record, N° 262 E, Vol.118. **The openly confessed, demonic purposes are : mind control of the individual and population control.**

Note also that Jose Delgado is the author of a book entitled *Physical Control of the Mind – Toward a Psychocivilized Society* (see the reference and link to the book in Chapter 12). In this book, Delgado shared his findings about the effects of brainchips in animals, but also... in humans ! Through this book, Delgado showed that total biological control of human beings is possible, that the individual is unable to counter the orders sent to the brainchip (even if it is his will !), and that he can be manipulated like a puppet through brainchips. Delgado's research took place more than 40 years ago, and this research has unfortunately inspired other generations of mad scientists...

Let's also note that Delgado's links with dictatorship are proved, since he served fascist Spanish dictator, general Franco (cf. [http://fr.wikipedia.org/wiki/Jose\\_Delgado](http://fr.wikipedia.org/wiki/Jose_Delgado)).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

*Dr. Jose Delgado had already implanted humans in the brain more than 40 years ago...*

### **Human beings chipped against their will, and tortured from a distance**

The first reports on the implantation of individuals without their knowledge and against their will, have begun to emerge. Some of these cases involve people who were implanted with brainchips against their will ! Remote torture carried out via these devices is sometimes referred to as cybertorture or electronic harassment.

For instance, there is the case of James Walbert, an American citizen of the City of Wichita (Kansas) who was brainchipped in secret and against his will, and who won a lawsuit in a U.S. court. **This man was tortured remotely via the RFID implants (so these chips were used as WEAPONS !) and experienced electric shocks and electronically generated tones because of the implants.** See on [https://www.youtube.com/watch?time\\_continue=54&v=eyEEE-o59xo&feature=emb\\_logo](https://www.youtube.com/watch?time_continue=54&v=eyEEE-o59xo&feature=emb_logo) or [https://www.mediafire.com/file/antr7e1919cd2wv/The Informer Report 12-20-2012 James Walbert. Organized Gang Stalking and Technological Harassment %5B360p%5D.mp4/file](https://www.mediafire.com/file/antr7e1919cd2wv/The_Informer_Report_12-20-2012_James_Walbert_Organized_Gang_Stalking_and_Technological_Harassment_%5B360p%5D.mp4/file) .

**Medical evidences of Walbert's chipping were provided to Justice.**

On 30 December 2008, the Court of Sedgwick County, Kansas, decided in Walbert's favor, and delivered a first-of-its-kind order of protection. Despite this order of protection, the cowardly and anonymous tormentors continued to harass and torture Walbert remotely through the implants !

But the case of James Walbert is not isolated ! Thousands of "targeted individuals," including women, innocent children and men, are secretly persecuted through this type of implant ! And there's something worse : some doctors, psychologists and dentists took part to this crime against humanity by implanting individuals (men, women and children), in secret, during surgery or dental procedures, taking advantage of anesthesia, for instance. All of this is detailed and reported on <http://yotruth.weebly.com/secretly-forced-brain-implants.html> .

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

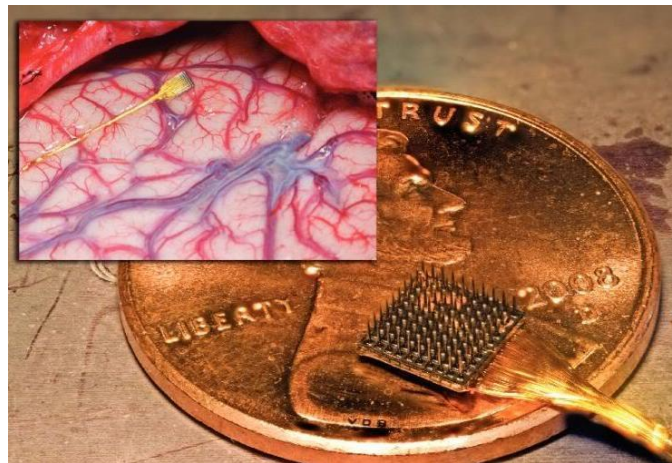

---

Deborah Dupre, an American who defends human rights and who's an author and a columnist, was among those who denounced the torments inflicted on "targeted individuals". See the following page about this topic : <http://www.deborahdupre.com/targetedindividuals.html>.

There's something that I really want to point out and emphasize : chip implants (including brainchips) are a **point of no return** for our societies, as well as other techniques of mind and behavioural control of the individual. The total biological control that they allow, and the torture that's associated to them, eradicate *de facto* any possibility of democracy.

Even though this kind of crime against humanity is known and documented, **the media and professional blackout on this atrocity continues**. So it's very clear that it is only through popular reactions – reactions of the PEOPLE – that this kind of technology will be prohibited. In addition, the appearance of modern nanochips gives an even more miniaturized and more devious form to this type of technology (see Chapter 9).

Let us now detail the dangers of subcutaneous chips for humans...

*Chip implants are a point of no return, and the guarantee of a totalitarian future...*

## **5. THE TRUE DANGERS OF THE SUBCUTANEOUS MICROCHIP**

The extreme dangers of neural chips and brainchips seem self-explanatory. Now, let's get back to the subcutaneous chips.

This new technology has multiple risks :

### **A) DANGERS FOR PRIVACY :**

As we saw before, the microchip implant contains multiple data, and some of them are very personal (genealogy, information on tax reports, criminal record etc.). The use of such a microchip could be a blaring infringement of the privacy rights.

Currently, even policemen don't have as many details on individuals ! We should gather police information, bank information, information kept by the ministry of finances, by courthouses and city halls, by doctors and by social security authorities to be as precise and complete as what the microchip contains !

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### **B) DANGERS FOR LIBERTIES AND HUMAN RIGHTS ; DANGER OF BEING SPIED ON, TRACKED AND REPRESSED :**

Given the current performances of satellites (the most powerful ones are able to see, from space, the content of a magazine that we're reading) and of localization systems (GPS), we can fear that the microchip could be used to spy on our slightest deeds. We could not only be localized and spotted, but also eventually filmed at any moment. As soon as this chip becomes widespread, scanners could become ubiquitous: in the street, at the buildings' entrance, in stores and hypermarkets, in post offices or near the municipal administration, in banks... and even in the citizens' homes ! This is of course an infringement of our most fundamental rights, but it's also pure espionage. We can shudder when thinking about the applications that "one" could do with that implant. Freedom of association, freedom of speech and even freedom of choice are threatened ! In other words, thanks to a power of intimidation that has never been known before, the microchip implant paves a royal way to "Big Brother" or to any malevolent power !

### **C) DANGERS FOR YOUR HEALTH :**

Then, of course, there are immense risks for health : first, the risk of the microchip breaking inside the organism, even if chances are tiny, would cause a painful and purulent wound due to the lithium contained in the battery, as we saw before; there's also the risk of playing with the hormones of the human body (stopping the production of the pituitary gland, for instance, which can be LETHAL !); furthermore, given that the waves produced by the microchip have direct effects on the organism and on the behaviour, we can just imagine what kind of ravage this implant could cause on the psychological and physical health of the individuals !

This has been proved : some reports were released, showing that the waves spread through RFID technology can break the DNA chain contained within the cells (cf. <http://www.next-up.org/pdf/ReuterRadioFrequencyEnergyShownToHarmDNA20122004InterviewVideoPrAdlkofe.r.pdf>), which can have LETHAL effects and cause numerous ailments and diseases such as, among other things, early dementia or cancer !

**The RFID chip implant is also CANCEROUS :** academic studies (contained in the report published by the CAMCAT association - Citizens Against Marking, Chipping And Tracking – see on <https://camcat.org/research/> ) proved it ! **An American inventor named Boy Boyce got cancer after being implanted with verichips** (cf. <http://www.bobbyce.org/> and [https://www.mediafire.com/file/a6x6dfzsqx5qsx/Bob\\_Boyce.pdf/file](https://www.mediafire.com/file/a6x6dfzsqx5qsx/Bob_Boyce.pdf/file) ). **So the danger for health that these chips represent is definitely confirmed !**

The report that the Food and Drug Administration released about the verichip, recognized the medical risks of the subcutaneous microchip for humans.

These risks are : "adverse tissue reaction" (= a risk to develop tumors) , migration of implanted transponder, failure of implanted transponder, electromagnetic interference, electrical hazards, incompatibility with magnetic resonance imaging (MRI) and with usual needles. Regarding magnetic resonance imagery (MRI), electrical currents may be induced in conductive metal implants, which can cause "potentially severe patient burns".

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

Subcutaneous RFID chip : the mark in the right hand...

### **D) MIND CONTROL DANGERS : THE SUPPRESSION OF FREE AGENCY AND DEMOCRACY :**

But there is much worse... Let's not be naïve : it's not a coincidence that the C.I.A. and eminent members of the government who were also involved in the control of the army, had a research made on mind and behavior control through waves, for the control of human beings !

These chips are radiofrequency or microwaves receivers and transmitters (microwaves and radiofrequency waves are the same type of electromagnetic energy. Radiofrequency waves vary from 100 KHz to 300 MHz, and microwaves vary from 300 MHz to 300 GHz (source: <http://www.inchem.org/documents/ehc/ehc/ehc016.htm#PartNumber:11> ).

We know that waves, once they're sent at certain frequencies and during a certain amount of time, can stimulate specific brain structures, and that they can start or stop the secretion of hormones (regarding this, please check out what is said about microwaves on the following website : <http://www.halexandria.org/dward078.htm> ).

*Microwaves cause "a destabilization and interruption in the production of hormones and maintenance of hormonal balance in males and females" and cause also "brainwave disturbance in the alpha, theta, and delta wave signal patterns of persons exposed to microwave emission fields". That disturbance of brainwave patterns results in "negative psychological effects", among which "loss of memory, loss of ability to concentrate, suppressed emotional threshold, deceleration of intellectual processes, and interruptive sleep episodes".*

Pr. Jose Delgado, who is notorious for developing some of the first cerebral control chips (and, in particular, the brainchip called "Stimoceiver"), proved the capital influence of **radiofrequency waves** on the neurotransmitters that produce the hormones (and, let's remember it, the RFID chips – among which the subcutaneous chips – are identification chips that work **with radiofrequency** !).

Jose Delgado said (cf. [http://en.wikipedia.org/wiki/Dr\\_Jos%C3%A9\\_Manuel\\_Rodríguez\\_Delgado](http://en.wikipedia.org/wiki/Dr_Jos%C3%A9_Manuel_Rodríguez_Delgado) ) :

**"Brain transmitters can remain in a person's head for life. The energy to activate the brain transmitter is transmitted by way of **radio frequencies**."**

(Source: Cannon; Delgado, J.M.R., "Intracerebral Radio Stimulation and recording in Completely Free Patients", in Schwitzgebel and Schwitzgebel (eds.)).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

So, as radio frequencies have an impact on neurotransmitters, and as neurotransmitters have a direct impact on the production or inhibition of hormones, we can for instance have, through subcutaneous RFID chips, more or less adrenaline being produced, which can make a person more or less aggressive, more or less anxious etc.

**This means that the control of human behavior is possible through the combined action of these subcutaneous chips, of satellites and of the relay antennas system (smartphones etc.) !**

In other words, the subcutaneous microchip for humans is what is called a "mind control" device, and it represents a **serious risk of suppression of free-agency and of the liberty of thought !**

This is so true that in order to **control the behavior** of pedophiles, the Belgian liberal deputy and neurosurgeon Jacques Brotchi proposed 2 means in his bill : the "chemical castration" (= injection of chemicals to inhibit the hormones) or... **the subcutaneous microchip !**

**What you must be aware of, is that by the time where a physical means (subcutaneous, neural or cerebral chip implants) allows the suppression free agency, we reach the point of no return.** Chipped people are not themselves anymore, and they can be remotely manipulated in a technological way by those who have the power. Some people called it "technological possession".

Generalized and/or widely spread, such a system makes it totally impossible to live in a democracy, since chipped individuals are fully manipulated (= total biological control). We would then reach the point of a society led by a **technological tyranny...**

This is the reason why this report is captioned "The Ultimate Threat."

### **E) BIRTH CONTROL DANGER :**

With the same means that are used for mind control (microchip or nanochip implants, waves of a certain frequency, satellites, GPS system, ground stations and antennas), births can be controlled too !

**Since it is possible to stimulate or inhibit the hormone production, it also means that it's possible to stop the production of oestrogens in women, and so it's possible to cause a premature menopause !** One can imagine the terrible consequences of such an application of the subcutaneous microchip if it falls between the hands of an unscrupulous government (which seems to be the case, since Sanders claimed that "the ultimate purpose of the powers controlling the world is to reduce the global population of 90%: a size which, according to them, is easier to control").

### **F) DANGER OF USING CHIPS AS LETHAL WEAPONS :**

Hormones are **vital** to the human body. The inhibition or the suppression of some hormones can cause serious and even **deadly** physiological troubles.

We can then wonder : what would happen if "one" would begin, through that microchip that transmits but also receives waves, to send some precise wave frequencies in order to deliberately modify people's behavior, or even to use it as a weapon in order to destroy the health of determined targets ?

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

And what would happen if mass chippings occurred a little bit everywhere on the planet (and that's what is being done, as we saw in chapter 3) ?

The answer is simple: the result would get would be a microchip which would be a **weapon**, and a worldwide dictatorship, whose eventual opponents would be easily eradicated, in all discretion !

As for freedom of thought and free will, they would also disappear ! "Big Brother" would be in possession of an army of serfs deprived of any will and subjected to the slavery of that evil microchip !

**Back in 2009, Saudi men tried to patent, in Germany, a subcutaneous chip that can release cyanide – a deadly poison** (cf. <https://pointdebasculecanada.ca/allemaigne-refus-de-breveter-une-invention-saoudienne-puces-sous-cutanees-pouvant-liberer-du-cyanure-par-telecommande/> or <http://www.mediafire.com/?zwxrjnjqw3n> ) ! Fortunately, this application was denied, but we can suspect that the bastards who proposed this abominable project will try to patent their devilish invention elsewhere... However, we see that **chip implants are now used as a deadly weapon to murder people under command !**

### CONCLUSIONS :

There is no more doubt to have after all that you've just read : **the subcutaneous microchip is a liberticide weapon of enslavement for peoples and for the individuals ; it is also the result of a worldwide conspiracy and of secret projects that were prepared for us for more than 40 years !**

Obviously, the microchip implant is not found everywhere just yet. But this doesn't happen only to others, and we are ALL concerned...

Now is the time for us to move and react before the microchip is IMPOSED in our countries ! Because this will happen pretty soon, as the microchip already spreads on the planet and gets such "strength of conviction" that few things will be able to be done to stop it, **unless we react immediately !**

"But yet we live in democracy, so no one will come to impose that microchip !". Yeah, maybe, but then you forgot one thing : some organizations and privacy advocates already protested against the "Verichip/Health Link" microchip. But their arguments were brushed aside by the company that produces these chips. "The expected benefits are more important than the worries about private life", claimed Applied Digital Solutions' ex-C.E.O., Richard Sullivan. What a wonderful "morality", don't you think ? As you can see, it's the capitalist and ultraliberal dictatorship that prevails over anything else !

After the so-called "terrorist" attacks of the 11th of September 2001, the USA voted, under the name "Patriot Act", a certain amount of "anti-terrorist" laws that allow the government to get over the American constitution (a constitution that guarantees basic rights and freedoms to the citizens : freedom of the press, freedom of speech, freedom of thought, freedom of association...). So the Patriot Act is a double edged weapon that could destroy, or even suppress, the liberties of American people !

Do you know that the U.S.A. is not the only country that has anti-terrorist laws of exception ? In France, the Perben law is, regarding the concept and the risks, a "twin" of the Patriot Act. In Belgium, the law of the 19th of December 2003 and the laws voted in July 2002 are also copies of the Patriot Act. The European « antiterrorist » laws that were adopted at the end of 2005 allow the retention of telephone, Internet and e-mail data (= invasion of privacy). In Canada, a similar project is under way ! This means that other countries (including our European

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

countries) inherited exception laws that have the same risks and drifts than the Patriot Act, and that those countries don't live in a democratic State anymore !

These laws represent a **real danger of totalitarian drift** for all those countries. And in a fake democratic and fully totalitarian State, the use of the microchip **can be totalitarian too !**

Moreover, the big business men who try to sell the subcutaneous microchip for humans are not that dumb ! We just saw the lethal dangers of the microchip implant, but they will introduce it to you with a honeyed voice "full of good intentions" (and as we know, hell is paved with good intentions), and the microchip will be presented at its best !

A word for the wise : A.D.S., in its project, never hid the fact that its microchip, among other uses, will be used in order to **"give a flawless, absolute and unailing identification model of the individual"**. Now, you're informed and you've been warned about it !

*Do you REALLY want to go through THIS !?*

### **6. HOW "THEY" WILL TRY TO GET PEOPLE TO ACCEPT THE MICROCHIP IMPLANT**

As we said above, the subcutaneous microchip will be introduced to us as a wonderful device so that we'll accept it without a second thought. But never forget this : if you let them implant that crap in your body, it will be over with your free agency, your privacy and your freedom !

So here are some wicked arguments that were introduced by A.D.S. and its subsidiary company, PositiveID. Chip implants will be used for :

- Safety in Internet applications for all transactions concerning electronic exchanges (e-commerce, e-payments)
- Research and rescue of individuals, including missing children or kids taken as hostages etc.
- Medical monitoring of high-risk patients
- Supervision, tracking and follow through of soldiers, diplomats or any other important member of a government
- Tracking, surveillance and checking of the authenticity of valuables
- Tracking, localization and follow through with the tracks or trails of people who like extreme sports (hiking, skiing, mountain climbing, sky diving etc.) and who could get hurt seriously after an accident
- Tracking and localization of kidnapped (or murdered) children
- Use in the war against "terror" (in airports and elsewhere)

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

**What humanism !**

**Please note that the words "supervision", "tracking", "surveillance", "research", "localization" and "checking" come back in a cyclic and almost obsessive, psychopathic way !**

**The microchip will be accepted by people because of so-called "safety" reasons : they will link the above beneficial effects of the microchip implant to the remedy against terrible events that will have occurred and that will – of course – supposedly never occur again thanks to the microchip (those events will eventually have been created in that purpose or even deliberately wanted : terrorist attacks, a particularly odious murder or a spectacular kidnapping, for instance !).**

**The microchip will also be related to eases, convenience, in particular financial or safety eases ("with that microchip in you, your money or your bank card will never be stolen anymore!"; "no more terrorists in airports: they'll be detected and identified way before their coming !", etc.).**

**Plus, the microchip will be "cool", "fun", and "trendy"! It's the embodiment of progress "that we can't stop, anyway"...**

**The only thing is to know what kind of "progress" we're talking about !**

**During the Cebit event in Hannover (Germany), in early March 2010, visitors were asked whether they would accept a chip under their skin ! Although 78% of visitors have declined, between 16 and 23% agreed to be chipped if it brought them some kind of advantage !**

**This is the way they'll try to have people accepting the evil chip : tempting them with so-called "advantages" and "benefits", or with illusory "protection" !**

**Financial arguments are very important for the development of the microchip implant : let's not forget that since its conception, the microchip was thought of in terms of worldwide government **and of worldwide currency** !**

**You'll just have to put your hand (or your forehead) in front of an ad hoc scanner, and your "virtual bank account" will be automatically debited of the amount of your purchases. They'll quickly replace bank cards, currencies and their "weaknesses" by the subcutaneous microchip, which will be dubbed as "unbeatable and hyper convenient". Do you think this is only speculation ? Then, you should think twice ! For example, a certain professor Kevin Warwick, from the cybernetics department of the university of Reading (U.K.) and who was implanted with the microchip, claimed not so long ago (on the 10th of October 1999) during a television broadcast called "Souriez, vous êtes filmés" ("Smile, you're filmed"), on the French speaking TV channel Arte, that "soon, bank cards (and of course the identity card, passport, social security card etc.) will be replaced by an electronic implant" !**

**And what do we see today ? We can see that subcutaneous microchips contaminated dozens of countries, that it's proposed as a means to reach a cashless society, and that it spread all around the world !**

**This financial purpose is about to be reached : in the USA, people already adopted "contactless" bank cards that contain RFID chips. The problem is that those RFID bank cards are hackable and allow identity theft, and even the theft of your money ! Any hacker who knows what he (or she) is doing can steal money from you ! This was denounced by the American organization CASPIAN (Consumers Against Supermarket Privacy Invasion And Numbering).**

**But **despite** abyssal dangers and the persistent possibility of hacking these RFID smart cards, they **keep** spreading around the world, mainly because mainstream media only advertise their alleged "benefits", and hide their dangers !**

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

The next step will probably be to tell people to stick this contactless smart card **under their skin** (subcutaneous chip) ! This way, "you won't lose it anymore, and they won't be able to steal it from you any longer" (unless, of course... they mutilate you !).

In late June 2006, we learned that an American biometric fingerprint payment system named "Pay By Touch" would begin to be implemented in Britain. So cashless society is developing, and is not an illusion or a hoax.

In the U.S., several banks already offer bank cards embedded with an RFID chip. However, the subcutaneous chip is **also** a RFID (radio frequency identification) system !

In the "Baja Beach Club" nightclubs in Barcelona and Rotterdam, as well as in Glasgow's "Bar Soba", the subcutaneous chip is being promoted and people get chipped so they can pay without any cash !

Rest assured that, if we do not react, the microchip, designed to reach a unique and global currency, will be proposed at first, then systematically imposed as the only "valid" means of payment, for the (false) reasons listed above.

Furthermore, imagine the colossal profits that PositiveID (and other companies producing subcutaneous microchips) will make from all those operations ! This represents an extremely juicy market ! The patents were acquired by A.D.S. for the "modest" amount of \$130 millions. Usually, you don't spend such a fortune if you're not sure to make benefits !

But in a society where that chip will be almost universal, what will happen to those who will refuse the microchip implant ? They won't be able to sell nor buy without that bloody implant, and they will have to survive like dropouts, bartering here and there...

Some theories and hypothesis assert that this subcutaneous microchip will only be proposed, then imposed, after a huge krach, a worldwide economical catastrophe... or that other options will be joined to the microchip implant to make it even more attractive (like the possibility to combine it with a cellphone, for example). And, what an unfortunate "coincidence", we are now experiencing a period of... global economic crisis.

Finally, the last pretexts to "chip" people are medical gibberish (and so, humanistic and "indisputable", since it's about people's health). The chip would allow to "save lives" by giving vital informations on people entering the hospital and being unconscious : their allergies, their blood type, their medical records etc. The microchip could measure the blood sugar levels of diabetics, identify viruses in the blood, or "enhance" the processing of the patients' records... Obviously, all of this is just a pretext to spread a device whose dangers (even for health !) were already shown and proved. Please note : the current chips system absolutely requires a centralized database which is placed on the Internet. Is it really a "unfortunate coincidence" that at the moment, there's a push for the adoption of electronic medical records, which are precisely placed on centralized databases ?

*Knowing what you now know, would you get chipped, or would you let your child get chipped ?*

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### Kids : an essential public and stake

Children and teenagers always were a particular and “privileged” public for the scums making and selling subcutaneous microchips for humans.

Why are **kids** so important to them ? Just because children are the **nerve of the “microchip war”!**

We do love our children and we naturally want them to be safe. This is the perfect “breach” for the companies marketing microchip/nanochip implants for humans ! “We live in an unsafe world, full of terrorists, kidnapers, sexual offenders and other bogeymen”, do they whisper in our ears.

To protect your kids in a safe way, you should have them be tracked electronically, or even microchipped, do they assert. They make you naively believe in the **myth** and **lure** of “total security” and they try to persuade you that, thanks to that chip, the safety problem would be “resolved” !

These scumbags are playing with parents’ emotions ! Besides, chipping the children is also an indirect means to touch the adults too. By the time the parents will have got their kids “chipped” and note that, finally and apparently, “chipping” doesn’t seem something dangerous but, on the contrary, “protects” their children, they will be tempted to get chipped themselves ! **Big mistake !** Because the dangers of the chip are and will be present !

In the U.S.A. or in Japan, some parents already begin to sacrifice (often without even noticing, and they’re minimizing the facts) the freedom of their kids for a so-called “safety”! In Mexico and Brasil (countries where kidnappings of children are “usual”), the chip industry succeeded in convincing some persons to have their children “chipped” !

If the current adult generation still shows reluctance regarding this infernal implant, kids can be brainwashed more easily : they don’t have an analytical mind yet, and they can be “attracted” in a quite simple way. Showing films and cartoons to the kids in which chips and RFID related topics are found, helps “sensibilizing” them. Watch closely the last movies that were released in the theatres, recent videogames or cartoons, and you’re going to be amazed by what you’ll find !

Have your kids wearing RFID tags and even subcutaneous microchips at a young age, and within less than a generation, everybody will find that wearing this abject subdermal implant is “normal” ! This is one of the main goals that people who market the subcutaneous microchips for humans (and the members of the New World Order) want to reach !

**So please be very vigilant, and don’t fall in such an obvious trap ! Most of all, do not let anyone “chip” your children. educate them and sensitize them to the liberties and true democracy values, don’t let yourself get fooled by the tricky arguments of the industrials and of the authorities who, for so-called “safety”, “humanistic”, “medical protection” or “convenience” excuses (financial ease, fashion), will come to tempt you so that you’ll get your children or grandchildren “chipped” !**

### Manufacturers of chip implants for humans try to cover their tracks...

Given the controversy and the opposition from some people against chip implants due to the countless dangers that these chips represent, the companies that produce and sell these abominations have adopted a particularly perFIDious and hypocritical tactics : they either

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

- Hide the fact that they sell implantable chips for humans,
- Try to rebuild a good reputation by changing their name and/or the name of the chip,
- Invoke humanist and so-called “medical” excuses (despite the fact that these chips are carcinogenic !).

For example, the company named Trovan, which briefly made the advertising for its implantable RFID chips for humans, the 100IH-ID and ID-100IH/A chips (see <http://www.mediafire.com/view/?nn1tmiywez> ), hurriedly removed from its website any mention of these chips for humans. But Internet users had downloaded the advertising brochure showing that these chips were sold by Trovan indeed. And so, you can still download this brochure (see the Mediafire link above).

For some time, there have been some technical differences in the chips and in the policy of the Applied Digital Solutions (ADS)/Digital Angel/VeriChip Corp./PositiveID/VeriTeQ consortium. Do not be fooled ! These despicable companies are only trying to look good and to cover their tracks, while depicting microchip opponents as wacky idiots, retrogrades, liars and so on.

The company split into different entities or was taken over by other corporations who have different names (VeriChip Corp., “PositiveID”, “VeriTeQ” and the latest one, Jamm Technologies), and these bought many subsidiaries. Its chip even changed names (it is not called the VeriChip anymore).

Now, the verichip is not implanted in the back of the hand anymore : it is implanted in the back of the arm (triceps).

All of this, of course, is done to thwart the denunciations of Christians who see these chips as the mark of the beast (a mark that is placed on or in the hand or the forehead – see Chapter 7)...

**Nevertheless**, you should know that ADS comes back - little by little - to its first resolutions : for instance, we can talk about the project aiming to use the verichip in order to unlock the triggers of “smart” fire weapons (smartguns), which would mean that gun owners or policemen would be implanted... in the back of the hand (let’s take note that the Belgian armateur “FN Herstal” takes part to that “smartgun” project...) ! So, you can see how sly this malevolent company is, and how easily they can lure you and fool you ! **So please stay vigilant and, whatever happens, don’t ever get “chipped” !**

The verichip, which ought to be an active chip (receiving and transmitting data at any time and without your knowledge), is, in its current configuration, a passive chip (which is only activated when a scanner goes over the microchip)...

However, be aware that the plan of making the verichip an active RFID chip **is still going strong**, and that VeriChip, PositiveID, VeriTeQ and Jamm Technologies still think about it eagerly ! In fact, they already have prototypes of active RFID chips, and the only thing preventing them to commercialize these as implants, is the size of these active RFID chips.

**The miniaturization related to nanotechnology will certainly suppress the size barrier**, since the first implantable RFID nano-chips – also called nano transponders – are ready (and are only 0.7 cm long – cf. <https://www.trovan.com/en/products/trovanunique-read-only/transponders> ) ! Actually, these nano transponders were not really nanometric or molecular in size. But we will see in Chapter 9 that this has changed a lot today (2020) ...

In addition, nothing prevents PositiveID/VeriChip/VeriteQ/Jamm Technologies to release on the market a first version of their subcutaneous microchip for humans and, once that model will be well spread and accepted, to introduce a second model which will have all the characteristics mentioned in the beginning of this report ! Besides, the dangers for your health, the risk of suppression of your privacy and the immense mind control peril still remain !

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### **7. THE SPIRITUAL AND BIBLICAL DANGER OF THE CHIP**

Even if you're not a believer, I think that this chapter will be very useful to you.

The Bible contains numerous important messages. The Old Testament was written in Hebrew. The New Testament, on the other hand, was written in ancient Greek.

In the last part of the Bible, called the book of Revelations, the author, St. John, tells us about what was revealed to him regarding the period of the latter days and which leads to the return of Jesus Christ.

That part of the Bible is particularly difficult to understand in a precise way because John uses numerous images to tell us about "the end times". He warns us about the Antichrist, about the false prophet, about the "beast" and "the mark of the beast", which will all try to cause the fall and perdition of humankind. John also describes Judgement Day and the way that God will send warnings and "plagues" on Earth, then how He will sort out the Good ones and the Bad ones.

The weirdest thing is that this part of the Bible, which seemed enigmatic for centuries, begins to be interpreted way more clearly since a little while !

Many Christians made an uncanny parallel between the mark of the Beast and chip implants. Dr. Sanders himself, after realizing the dangers of the microchip, was convinced that the microchip implant was indeed the cursed mark quoted in the Bible.

See for yourself :

***(Revelations, 13:4-5, 16-17-18) : "And they worshiped the dragon which gave power unto the beast...and there was given unto him a mouth speaking great things and blasphemies... And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: and that no man might buy or sell, save he that has the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man, and his number is six hundred threescore and six (666)."***

When you know that the subcutaneous microchip for humans works to the maximum of its functions in the back of the hand or in the forehead (because those 2 places are the places in the body that change their temperature the most easily, allowing the tiny lithium battery to reload through thermoelectricity), it seems amazing, doesn't it? The mark in the hand makes you think immediately about subcutaneous microchips, while the mark in the forehead points to brainchips.

When we know that the companies making these chips want to generalize it on a worldwide scale and that the microchip has financial ambitions aiming to create a cashless society where money would be a one-world, unique currency, and would only be "virtual", one can guess that in a society that would be dominated by the use of the microchip as a means of payment, those who wouldn't own that chip and who wouldn't be implanted couldn't buy or sell a thing. One more troubling element in relationship with the book of Revelations...

And when we know that the number 666 is part of that microchip (see Chapter 2 above: History of the subcutaneous microchip), you begin to think that there are A LOT of "coincidences" (way too many, in fact) once you compare the specificities of the microchip to the verses of the book of Revelations quoted above.

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

Another quote from the Bible: (Revelations, 16:2) : *"The first angel went and poured out his bowl on the land, and UGLY AND PAINFUL SORES broke out on the people who had the mark of the beast and worshiped his image".*

When you know that the microchip has a lithium battery that would cause, once it's broken, a painful wound filled with pus, you think immediately about the Bible quote.

When you know that this RFID chip implant is also cancerous and causes malignant tumors, the verse above is even more revealing ! What can be closer from an "ugly and painful sore" than a malignant tumor ?

Finally, the Greek word used for the mark of the Beast, "charagma", is used for a mark that is made with an awl (just like the chip is injected thanks to a hypodermic syringe, which is also some kind of an awl !). There's something that's even more amazing : the same word, "charagma", can also refer... to a snakebite (see <http://www.ridingthebeast.com/images/charagma-echidnes-TDNT.gif> ) ! And to any believer, the snake and the serpent represent Satan. Now, look at the fangs of a snake, and compare them to a syringe needle, and you will be surprised by the striking resemblance between both items (see the image below) ! And of course, chip implants are injected into the body with... a syringe and a needle !

**Question : do we witness the latter days period ?**

The Bible, through the book of Revelations, warns us severely **SO THAT WE WON'T ACCEPT THE MARK OF THE BEAST**, and exhorts us to live following God's commandments :

(Revelations, 14:9-12): *"And the third angel followed them, saying with a loud voice : If any man worship the beast and his image, and receive his mark in his forehead or in his hand... The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb. And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name. Here is the patience of the saints: here are they that keep the commandments of God, and the faith of Jesus".*

But the Bible also tells us that refusing the mark of the beast will have consequences (but only consequences for the body, not consequences for the immortal soul) :

(Revelations, 20:4): *"...and I saw the souls of them that were **BEHEADED** for the witness of Jesus, and for the word of God, and which had had not worshipped the beast, neither had received his mark upon their foreheads, and in their hands; and they lived and reigned with Christ a thousand years."*

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

So, the final victory belongs to those who won't have accepted the mark of the beast. But it's also here that the true question lies : are you ready to be unable to sell or buy anything and eventually to live from barter, like dropouts, because you refused the mark (= microchip/nanochip implant) ? And furthermore : are you ready to be persecuted or to die because of that decision (cf. the theme of the beheading and of the resurrection in the excerpt above) ?

Or do you prefer losing your freedom, your free agency and your soul accepting a microchip/nanochip implanted in your hand or in your forehead, and then drinking the wrath of God ?

Will you prefer dying as a chipped and mindless slave, or as a free and conscious man ?

This is the question you have to think about from now on, for when the time has come, you'll have to choose your camp, and there will be no alternative or compromise ! One thing is certain: believer or not, you won't be able to claim that you were not warned ahead of time about the risks and dangers – spiritual or not – of chip implants !

**VERITEQ**

*Weird "coincidence" and devilish symbolism: VeriTeQ's logo contains a letter Q that closely resembles a snake's eye !  
VeriTeQ markets RFID chip implants for humans...*

### ON the hand or forehead, or IN the hand or forehead ?

Translations of the book of Revelations about the mark of the beast (a book which was written in ancient Greek, remember), differ slightly depending on the version of the Bible that is used, and depending on the language in which you read the text. In some versions of the book of Revelations, it is written that the Beast demanded that people received «a mark **IN** their right hand or **IN** their foreheads». In other versions, it is stated that the people receive « a mark **ON** their right hand or **ON** their foreheads ».

In reality, this is not a problem. Some French Bibles, as the Martin Bible for example (see [http://www.biblemartin.com/bible/bible\\_frm.htm](http://www.biblemartin.com/bible/bible_frm.htm)), translated "IN their right hand, or IN their foreheads". Others have translated "ON their right hand, or ON their foreheads". In French, the majority of Bibles translated by "on", while in English, most Bibles have translated by "in".

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

There is a logical explanation for this : in the ancient Greek text, the word that caused this difference in translation is the word "epi" (ἐπι). And the word "epi" can mean "on", "in" or "in the middle of" !

I believe that this is not a coincidence, but an ambiguity that should keep us aware that **the mark of the beast could be something that is IN (inside) the hand or forehead** (a chip or nanochip implant injected under the skin or in the brain), **OR something that is ON the hand or forehead** (a headband or wristband embedded with a RFID chip, or a RFID tattoo, for example – by the way, speaking about these RFID ink tattoos which, consequently, work with radio frequency waves that can cause tumors, here is a report telling us about the company that sells this infamous technology – a company that is called Somark Innovations :

<https://curtisward.wordpress.com/2016/10/15/invisible-rfid-tatoo-planned-for-humans/> . Have you noticed this incredible "coincidence" ? This company has the word "mark" within its very name !). It seems that the sulphurous company Somark Innovations has ALSO very unfortunately changed its name, or has been taken over by another company called Thomas Scientific, whose website is currently not accessible (cf. <https://thomassci.com/EUGDPRStatement.htm> ). Also note the existence of "temporary electronic tattoos" containing a RFID chip (see <https://innhotep.blogspot.com/2013/02/le-tatouage-devient-incontournable-dans.html> ), which are placed ON the hand or ON any other part of the body...

For people who are interested in further explanation and sources about the link between the chip and the mark of the beast, I highly recommend reading the following page : <http://www.ridingthebeast.com/articles/epi-charagma-chi-xi-stigma/> .

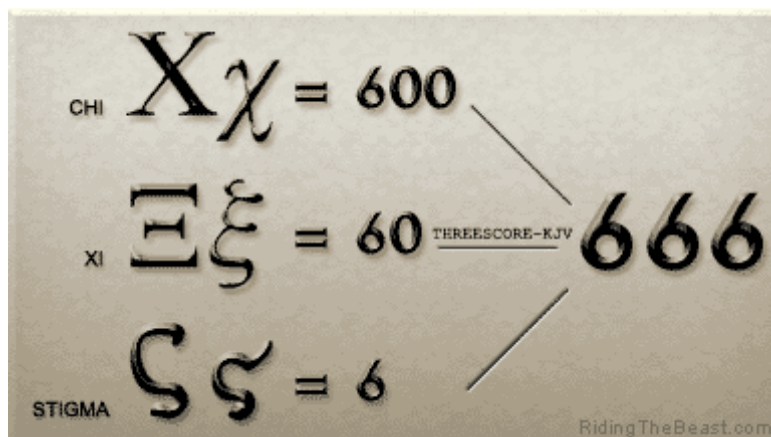

### Why the number 666 ? What does this number refer to ?

The Old Testament, as I previously reported, was written in Hebrew. The people who wrote the New Testament in ancient Greek, often used a technique, in homage to the Old Testament : in their writings, they gave subtle references to the Old Testament to indicate that their text was an extension of the founding Old Testament. When he wrote the book of Revelations, St John of Patmos made such a connection with a passage from the Old Testament, and it so happens that this connexion is about... the number 666 !

Regarding the mark of the beast and the number of his name, this is what's written in Revelations, Chapter 13: "it is the number of a man : his number is 666".

In ancient Greek, the 666 mentioned in Revelations chapter 13 is one of the rare occasions where a number is spelled out : chi-xi-stigma. Note that the stigma looks very much like a snake...

Stigma is the number 6, but it is also a word.

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

**Strong's Concordance** gives to the word *stigma* the following definition (cf. <http://www.elijah.com/cgi-bin/strongs.cgi?file=greeklexicon&isindex=stigma>) : stigma stig'-mah from a primary stizo (to "stick", i.e. prick) : a mark incised or punched (for recognition of ownership), i.e. (figuratively) scar of service:-mark. With the definitions of stick, incised, punched, and mark, stigma is very close to the definition of the word *charagma*, which is used for the mark of the beast.

### Why are we told that 666 is "the number of a man" ?

The answer is : in the Bible, there are only two passages mentioning 666 : on the one hand, Revelations, Chapter 13 (New Testament), and on the other hand, a passage from... the Old Testament.

This passage from the Old Testament is First Book of Kings, Chapter 10, and it is the **ONLY** Scripture, apart from that of Revelations, that refers to the number 666 !

In this passage, the Queen of Sheba visits King Solomon, and discovers all the wealth and the business, economic and financial system that Solomon established. The passage reads :

*Now King Solomon gave the queen of Sheba all she desired, whatever she asked, besides what Solomon had given her according to the royal generosity. So she turned and went to her own country, she and her servants.*

**THE WEIGHT OF GOLD THAT CAME TO SOLOMON YEARLY WAS SIX HUNDRED AND SIXTY-SIX TALENTS OF GOLD,**

*besides that from the traveling merchants, from the income of traders, from all the kings of Arabia, and from the governors of the country.*

*And King Solomon made two hundred large shields of hammered gold; six hundred shekels of gold went into each shield. He also made three hundred shields of hammered gold; three minas of gold went into each shield. The king put them in the House of the Forest of Lebanon.*

*Moreover the king made a great throne of ivory, and overlaid it with pure gold. The throne had six steps, and the top of the throne was round at the back; there were armrests on either side of the place of the seat, and two lions stood beside the armrests. Twelve lions stood there, one on each side of the six steps; nothing like this had been made for any other kingdom.*

*All King Solomon's drinking vessels were gold, and all the vessels of the House of the Forest of Lebanon were pure gold. Not one was silver, for this was accounted as nothing in the days of Solomon. For the king had merchant ships at sea with the fleet of Hiram. Once every three years the merchant ships came bringing gold, silver, ivory, apes, and monkeys. So King Solomon surpassed all the kings of the earth in riches and wisdom.*

*Now all the earth sought the presence of Solomon to hear his wisdom, which God had put in his heart. Each man brought his present : articles of silver and gold, garments, armor, spices, horses, and mules, at a set rate year by year.*

*And Solomon gathered chariots and horsemen ; he had one thousand four hundred chariots and twelve thousand horsemen, whom he stationed in the chariot cities and with the king at Jerusalem. The king made silver as common in Jerusalem as stones, and he made cedar trees as abundant as the sycamores which are in the lowland. (The Bible, 1 Kings, 10:13-27)*

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

Please pay attention to the passage that indicates that the weight of gold that came to Solomon yearly was 666 talents of gold !

In this passage, we see that **the number of the beast, 666, refers to a man : King Solomon !**

Now, let's look at what 666 represents...

In the above passage, we can see in detail that number 666 is associated with wealth and with the financial, economic, and commercial power that King Solomon had developed.

**In other words, the number 666 is a financial, economic and trade/commercial system !**

And, the mark of the beast has just been designed so that "no one may buy or sell except one who has the mark or the name of the beast, or the number of his name" !

**So this is the reason why the mark of the beast has the number 666 : because it develops a financial, economic and commercial system of wealth which is similar to that which Solomon installed during his reign !**

**And it just comes to happen that one of the applications of chip implants is about making them an electronic means of payment which is totally dematerialized (cashless society) ! So, the explanation and the link are obvious... especially as cashless systems have been widely developed in recent years (see <http://marialeroux1.xooit.fr/t114-SOCIETE-SANS-ARGENT-CASH-SOCIETY-WITHOUT-CASH-MONEY.htm> ).**

Note that as soon as bar codes, electronic chips and the first personal computers (PC) appeared, the number 666 was highlighted... For instance, the first computer the Apple brand put up for sale was the 666 model, and it was sold for... 666.66 dollars !

Apple had also carried an advertisement related to the biblical passage in Genesis, with a representation of Adam who held a computer to hide his nakedness ! Finally, the old Apple logo was an apple that was missing a piece : the apple of the original sin, which was bitten by Eve !

Today, all banks and all payments are handled electronically, and the current electronics is based on the **digital** system, so on **digits** and **numbers**.

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

**We're looking for the most original use  
of an Apple since Adam.**

**What is the name of Adam do people do with  
Apple Computers?**  
You tell us.  
In a thousand words or less.  
If your story is original and intriguing enough,  
you could win a one-week, all-expense paid trip for  
two to Hawaii. Which is the closest we could  
come to paradise.

**Win fabulous prizes for  
creative writing.**  
Go online, drop by your nearest Apple dealer and  
pick up an entry blank. Fill it out. Then write an  
article, 10,000 words or less, describing the unusual  
or interesting use you've found for your Apple.  
A jury of independent judges will cast the  
deciding vote for the grand prize: a week for two,  
airfare included, to Hawaii.  
The judges will also choose 11 additional  
winners, two each from eight categories:

graphics work, entertainment, home, business,  
education, scientific, professional, and industrial.  
And each winner will choose from a long list of  
longed-for Apple products—down Apple  
Disk II's to Graphics Tablets to printers.  
Or you can take a \$250 credit towards the  
purchase of any Apple product.  
The contest ends March 31, 1988. All winners  
will be notified by May 15.  
Entry blanks are available at your participating  
Apple dealer. Call 800-538-8686, 800-538-8788  
in California, for the one nearest you.  
Mail the entry blank, your article and any  
photos to: Apple Computer, "What is the name  
of Adam" contest, 12240 Sandley Drive,  
Cupertino, CA 95014.  
And may the juiciest  
applications win.

apple computer 

### Dubious emblems...

On some chips, you can find coat of arms or blazons. To see them, you need an electronic microscope, because they are so tiny. This is called "chip heraldry". Among the blazons that some people found on the chips, there was this one, which has a devilish symbolic:

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

Please note the three frogs, which strongly recall a passage from the book of Revelations (Revelations, 16:13): **“And I saw three unclean spirits like frogs come out of the mouth of the dragon, and out of the mouth of the beast, and out of the mouth of the false prophet”**. Please pay attention, in this image, to the 666 that sits at the center of the shield ! In addition, this coat of arms has cultural significance : indeed, this shield with the three frogs (but deprived of the number 666) is generally called ... the devil’s coat of arms (cf. [http://en.wikipedia.org/wiki/Common\\_toad](http://en.wikipedia.org/wiki/Common_toad)) !

### RFID chips and chip implants have been recognized as the mark of the beast !

**It is of vital importance that you realize that now, some high Christian authorities officially recognized RFID chips and microchip/nanochip implants as the mark of the beast described in the book of Revelations !**

For example, the **Byzantine Catholic Patriarchate** denounced this in a letter they sent to members of Congress of the United States, and also to European leaders. Read the proof and the letter on their website: <http://vkpatriarhat.org/en/?p=3845> (English version) and <http://vkpatriarhat.org/fr/?p=7101> (French version).

The **Greek Orthodox Church** has also denounced the physical presence of the number 666 in barcodes, in smart cards and also in the Schengen zone’s european passports ! For this very reason, the Holy Synod of the Greek Orthodox Church appealed to the Greek government so that it (the Greek government) would not accept the 666 number code for new ID cards !  
See <https://greece.greekreporter.com/2010/11/18/greek-church-demands-no-mention-of-666-on-new-i-d-cards/> ou [https://www.mediafire.com/file/5cw58cmi91pxpzk/Greek\\_Church\\_Demands\\_No\\_Mention\\_of\\_666\\_on\\_New\\_I.D.\\_Cards.doc/file](https://www.mediafire.com/file/5cw58cmi91pxpzk/Greek_Church_Demands_No_Mention_of_666_on_New_I.D._Cards.doc/file).

While some Christian rites have criticized RFID chips and chip implants as the mark of the beast, this is far from being the case of the Roman Catholic Church ! The latter, which is struggling with serious moral issues and also faces charges of crimes against humanity (pedophilia, genocide, money laundering ...), even recently FORCED priests and individuals of the Vatican who wanted access to archives, TO WEAR AN ELECTRONIC IDENTITY CARD

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

**EMBEDDED WITH A RFID CHIP! Appalling !** The excuse given by the Vatican was related to the embarrassing leaks linked to the **"Vatileaks" scandal**. So, to prevent further leaks and to strengthen "security", the Vatican took this totalitarian measure mandating identification cards embedded with a RFID chip ! You can find the particular article which documents that decision on [http://www.bishop-accountability.org/news2012/11\\_12/2012\\_12\\_06\\_Tornielli\\_andandBig.htm](http://www.bishop-accountability.org/news2012/11_12/2012_12_06_Tornielli_andandBig.htm) or [https://www.mediafire.com/file/1uv47hbddf6v7b/Big\\_Brother\\_Comes\\_to\\_the\\_Vatican.doc/file](https://www.mediafire.com/file/1uv47hbddf6v7b/Big_Brother_Comes_to_the_Vatican.doc/file).

This Vatican's decision about RFID identity cards has also been severely condemned by the Byzantine Catholic Patriarchate. See the letter sent by the Patriarchate to the Vatican about this very topic – a letter that can be found on the Patriarchate's website :

<http://vkpatriarhat.org/en/?p=4741> (English version) and

<http://vkpatriarhat.org/fr/?p=7067> (French version).

All in all, we have seen that **the dangers of RFID chips and chip implants do not only threaten your health, but also all the citizens' freedoms and rights**. Moreover, a very important spiritual threat adds up to this, as these chips have been recognized by some Christian denominations as the mark of the beast. A mark which, if taken, condemns a person to the wrath of God... and to eternal damnation.

**For all these reasons, I can only recommend you to refuse this type of technology, and to oppose it with all your strength, with all your soul and with all your heart !**

*Chip implants : the mark of the beast !*

## **8. TECHNOLOGIES THAT ARE COMPLEMENTARY TO THE MICROCHIP IMPLANT**

Now, we're going to address, in a non exhaustive way, some existing technologies that might be associated to chip implants to make them more "perfect" or to raise the manipulation and control of minds, bodies and behaviours.

Please remember this : all that is said in this part of the article already exists now ; if you didn't hear about it in the mass media or if you don't hear about it anymore at the moment, it doesn't mean that "they" aren't planning things out of our knowledge !

### **A) Cybernetics and transhumanism :**

This part of technology is only (officially!) at its first steps of development. Nevertheless, some reports, such as the one that was published in the Washington Post on the 28th of August 2001, can't leave us indifferent. It's also possible to visit the French site <http://www.lemonde.fr> and to ask to check the edition of the 15th of November 2001. This will allow you to read a very

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

telling article.

This very article relates to a discovery that enables living brain cells to interact with an electronic circuit made of silicon wafers. The experiment set up consisted of building a "partially living" electronic circuit made up of multiple snail neurons glued to tiny transistor chips. Cells have been shown to communicate with each other as well as with silicon wafers.

The applications that were thought about for this discovery were : developing artificial retinas and prosthesis that would be extensions of the human nervous system (!), helping the blind to regain sight and the paralysed to "make objects move just by your thought", building computers that would be as inventive and adaptable as our own nervous system, building a generation of robots that would really deserve to be called "intelligent".

Robots and humans share two characteristics : they are both **BIDIRECTIONAL** beings, and both run through electrical impulses (the human nervous system sends and receives electrical impulses). What this bidirectionality means is simple : what goes one way can also go the other way around. Robots and humans both work through outgoing orders, but also through incoming orders ! Here is an illustration :

**Outgoing orders** : these are orders coming from the brain of the human or from the robot. These orders exit through the nerves (or through the cables for the robot) and allow them to move their limbs (= motor orders).

**Incoming orders** : these are orders coming from the outside and which are received by the human being or by the robot through his/her/its sensors (eyes, nose, ears, fingers, skin and taste buds for the human; sound sensor, ultrasonic sensor, infrared sensor, light-sensitive sensor, cameras etc. for the robot). These orders come from the outside and go into the human's brain or to the robot's central memory unit and microprocessors.

It is this bidirectionality, and the fact that the exchange of information can happen thanks to electricity running through silicon chips and neurons, which allow to create cyborgs, that is to say, beings who are partly made out of living organic matter, and partly made out of electronic, robotic and non-living matter.

We can already imagine, beside the wonderful and allegedly "humanist" applications, the dangers of this technology which really plays with living beings ! Finally, cybernetic arms and hands already exist and have been developed and tested in humans in many parts of the world. Some of these cybernetic limbs also work thanks to... brainchips !

The pretexts used for introducing cybernetics are always the same : first, there are "pseudo-medical" excuses which claim to cure or help people through cybernetics or implants ; on the other hand, there is the excuse of modernity, ease and progress ; and finally, there is even the project to "improve" the human being by giving him "new powers." This horrible purpose (physically "improving" the human being) is part of the transhumanists' plan. Transhumanists are crazy eminent scholars who want to go beyond human condition to become immortal "supermen" through technology (i.e., a resurgence of the old Nazi myth of the *Urbemensch* – the Superman). Now, transhumanists (sometimes called techno-progressists) even have a logo: that of the "technological Singularity". This logo is represented by the symbol H+.

### **B) Nanotechnology :**

Nanotechnology is based on the "conquest of the infinitely small". In this kind of technology, scientists work at the scale of a nanometre (nm), which means the billionth part of a metre, or 80.000 times less than the thickness of a hair ! Therefore, what is produced using this technology is at the molecular scale, or just a little larger than the molecular scale.

Nanotechnology is developed in many areas, ranging from entertainment to military weapons, from food to surveillance !

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

Like any other technology that can bring "big money", efforts are being made to develop it to the maximum, boasting its "humanist" and humanitarian qualities, while in reality, dangerous applications can be born out of it (and we're getting there, as you'll see...). Europe wishes to create an industrial nanotechnology platform and, just for 2003, the European Union granted 700 millions of euros (!) for nanotechnological research. So much money is probably not given for charity or social purposes, as you can figure...

This is how, without hiding or even blushing, the European Commission (including its ambassador, Mr. Philippe Busquin, ex-Belgian politician who became the European Commissioner for research) financed, among other projects, "D.N.A. matrices and biochips", in order to develop a disposable biochip for cheap D.N.A. analyses... Sad but true ! Our good old Europe is definitely NOT safe !

Big question: by introducing nanochips or nanorobots in our body, what are the risks? For if these nanochips can be used to "spot cancerous cells" or to heal a disease inside the human body, why couldn't they be used to destroy that same body ? After all, this is only a matter of intention and of programming...

You also need to know that technical and technological capacities exist to create identification nanochips (which are totally invisible to the human eye) and to implant them, one way or another, in human beings. Some nano-level projects were specifically developed for this purpose ! The greatest danger lies in the tiny size of these nanochips : they are completely invisible to the naked eye, and could be introduced within the body without the knowledge of the person, by injection, ingestion, inhalation, or even by introducing them into the body through the pores of the skin !

It should also be noted that nanoparticles entering the body can cross without any problem the immune system barrier, and even the blood-brain barrier which protects our central nervous system (so we are totally defenseless against them) !

The ultimate danger lies in the risk that, within a few very short years, we'll be able to create nanochips aimed for the identification, for the tracking, and for the emotional, hormonal and mind control... of the individual ! Here is one more reason to move and react without any delay !

### C) Biometrics :

Biometrics is the science that calculates the measurements of a human organ. But today, the applications mostly made it a means of control and identity check. Noticing that fingerprints are permanent and unique, that they are created before birth and that their pattern stays the same for life, our "good" old industry, without any morality, used them in order to create identification systems based on fingerprints, on the morphology of the hand, on the analysis of DNA samples or on the scanning and recognition of the iris (the latter being the most reliable method).

But of course, once again we are shown the wonderful eases and the lightning fast progress that are offered by this technology : over with passwords and confidential codes that are difficult to remember ; over with the risks of theft, oblivion, transfer etc. And of course, there are no reports (or they are not emphasized enough) about the enormous implications of biometrics regarding the reduction of privacy and freedom !

### D) The HAARP technology :

HAARP (High-frequency Active Auroral Research Project) is a project of the U.S. Army and of the "Apti-Arco" oil company. It replaced the "Star Wars" project, but HAARP is land based,

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

though. Powerful and polyvalent, HAARP takes advantage of the ionosphere (the layer of the atmosphere that is located above the stratosphere and which is constituted of ionised particles that are highly charged in energy) in order to use it as an energy weapon. For complete information on this topic, you can visit the following website :

[http://ekladata.com/H6LdmONoxMQdiB4rpCLnMct\\_Eu8/HAARP-et-le-controle-du-climat.pdf](http://ekladata.com/H6LdmONoxMQdiB4rpCLnMct_Eu8/HAARP-et-le-controle-du-climat.pdf) .

A file (in French) on the HAARP project can be found there.

The HAARP facility is a huge installation of several hectares located in Gakona, Alaska. It's a vast deforested and flat perimeter, flanked by 48 antennas that are 28 metres high ; each of them is linked to a transmitter that's a little bit less powerful than one million (!) watts. The use of HAARP is the following : they bombard the ionosphere with extremely high frequency waves. The ionosphere is then transformed in a kind of enormous virtual "mirror" that acts like an antenna. That virtual antenna will retransmit extremely low frequency waves, which creates some kind of "gigantic microwave oven" in a specific part of the ionosphere. **Let's also notice that extremely low frequency waves are harmful to the nervous system and can allow mind control, create hallucinations etc.**

### THE APPLICATIONS OF HAARP :

- Interrupting all kind of Hertzian communication and broadcast
- Destroying jets or missiles in the sky or messing up their electronic radars
- Causing explosions as powerful as an atomic bomb
- Modifying the weather locally
- **Influencing human behaviours** (since we saw that waves can influence the behaviour, and given the power of HAARP, we can imagine the terrifying use that could be done from it ! This is where there can be a link with the microchip implant : HAARP could work like a powerful relay with satellites or like a gigantic transmitter allowing mind control over populations !). For those who are interested in HAARP, may I suggest the excellent work written by Jeane Manning and Dr. Nick Begich: Angels don't play this HAARP (cf. <http://www.amazon.fr/Angels-Dont-Play-This-Haarp/dp/0964881209>) ?

## E) Liquid crystals vaccines and nanovaccines :

Liquid crystals vaccines and nanovaccines are part of the novelties regarding vaccination...

D.N.A. is constituted of liquid crystals. The idea of liquid crystals vaccines is about injecting some "nude D.N.A." in the organism (by intra muscular way, for instance), which is made of repetitive sequences of D.N.A. (this D.N.A. can be synthetic) that are the supports of cellular information. On those repetitive sequences of D.N.A., they transplant either sequences of viral D.N.A. or coding genes for viral or bacterial proteins. The integration of that genetic material to our cells is very quick, and we can't control the synthesis of the proteins that are made afterwards, as they are integrated to our genetic heritage.

Here's the problem: when you're injected a vaccine, who knows what's in it, exactly ? Who knows if it's a "traditional" vaccine or a liquid crystals vaccine/nanovaccine ? Even the doctor who injects it to you sincerely ignores it !

But the question at hand is once more linked to controlling individuals : that "foreign" D.N.A., which is implanted through a vaccine... could it be some kind of "antenna" that could be programmed from the outside and that could be introduced within our organism in order to reach objectives that can be very different from the humanist health purpose ?

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

For example, is there no risk that, being stimulated by an external phenomenon (a certain wavelength emitted by satellites and which would be relayed by a microchip implanted in the body, for instance), these DNA (and viruses) particles, once integrated by our body, would not start to activate our immune system, but would slow it down or stop it, or would even produce toxins or deadly viruses ? It would still be, in this case, evil techniques of mass action against people, with the help of a cellular antenna and a microchip which would bypass individual consciousness !

Some people seriously wonder about this, especially in Quebec and the USA. Anne Givaudan's very brilliant book, « Les dossiers sur le gouvernement mondial » ("The files on the world government"), is also very explicit regarding the ultimately very little curative role of vaccines (some have more than undesirable side effects ! For the full reference of this book, see Chapter 12 at the end of this report). Note : This is the only book written by Anne Givaudan I'd recommend, because it is backed by serious press releases and proves its point. However, I wouldn't recommend her other books, which are heavily "New Age" spirituality oriented, and consequently do not present any valid proof or information, and should be avoided altogether."

In addition, **there are currently nano-vaccines containing nanoparticles which are very dangerous for your health and which are so small that they can penetrate inside the human body by means of a spray, allowing them to enter the pores of the skin or the mucous walls !** For example, nanoparticles were found in H1N1 vaccines which were marketed in 2009 (see <https://www.mondialisation.ca/nanoparticules-dans-les-vaccins-non-test-s-contre-la-grippe-porcine/15207>) !

Moreover, pharmaceutical companies are beginning to produce and test nanovaccines, such as the "Rusnano" Russian company (cf. [https://en.rusnano.com/?\\_ga=2.113138944.525415512.1594064139-396547489.1594064139](https://en.rusnano.com/?_ga=2.113138944.525415512.1594064139-396547489.1594064139)) !

The only "small" problem is that **nanoparticles cause very serious health problems, and they can even cause death !** A study written by Beijing's Chaoyang Hospital confirmed that **nanoparticles cause lung damage and other malignancies in humans** (see <https://www.mondialisation.ca/nanoparticules-dans-les-vaccins-non-test-s-contre-la-grippe-porcine/15207>) !

So here's another danger which, under the guise of "health" concerns, might actually cause a lot of damage ! We will talk more about these nanochip and nanoparticle vaccines in Chapter 9.

### F) Chemtrails :

"Chemtrails" (chemical trails) are tracks that are made by the jets and airplanes' reactors. But they're not the usual condensation trails ("contrails") !

On the contrary, chemtrails are made out of chemical particles falling over the populations living in the villages above which the jet dropped its dangerous cargo ! The main characteristic of these chemical trails is the expansion that they reach in the sky and their "life expectancy" : sometimes, they can remain more than 30 minutes or even hours in the sky before disappearing. The goal of those "chemical operations" is not well known yet : testing the resistance of populations to some chemicals or testing the toxicity of these chemicals ? Spreading viruses, nanoparticles or bacteriological weapons upon a given area ? Helping the rise of the greenhouse effect ? Spreading chemicals that will reinforce the power and the effects of the HAARP ? Disseminating nanochips in the atmosphere ?

Anyway, one thing is certain : governments are usually involved in these chemical operations, and the Congress of the U.S.A. even recognized chemtrails as "exotic weapons". For a more complete information concerning chemtrails, please visit the following website (in French): <http://www.chemtrails-france.com/>.

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

### **G) Other means to oppress or to chain human beings :**

We now have so many means to use the environment, the animals and the people like guinea pigs or to turn them into mindless zombies, that we're lacking room to review them all : let's list, among other things, the problem of genetically modified organisms (G.M.O.'s), cloning and all the other possible genetic drifts, but also "exotic" weapons, directed-energy weapons (D.E.W.), and the C.I.A.'s weapons and programs destined to control the human mind and behaviour. The following site will give you a glimpse of those C.I.A. and globalists' programs: <https://www.ozelburoistihbarat.com/telegram/mk-ultra-project-patents-articles-and-statements-on-mind-control-and-directed-4719>. Here's another document : <https://www.projectcensored.org/wp-content/uploads/2010/05/ElectromagneticWeapons.pdf> or <https://www.mediafire.com/file/hvl75aogq182g1u/ElectromagneticWeapons.pdf/file> .

Recently, "scientists" developed a biological transistor and a biological computer (see <http://www.sciences-mag.fr/2013/03/ordinateur-biologique-fabrication-transistor/> ) ... This biological computer will make it possible to "REPROGRAM LIVING SYSTEMS," which obviously implies the risks of totalitarian excesses and total biological control of individuals !

In one word, to the light of all these technologies and techniques, we can assert the following statement : always presented with wonderful and beneficial arguments and intentions, those inventions are often discovered in an industrial and/or military environment, which always makes them potential weapons because they're only dedicated to power, war or benefit at all costs.

The biggest mistake of humankind, nowadays, is to consider any thing, any being and the most precious gift (= life) as a simple merchandise, and to have been tempted to sacrifice spiritual things against material things. We're getting to a time where a very important choice will have to be made : either we'll choose a change that, finally, will bring back true values, or then we'll go for nonchalance and tolerance for all those horrors that are already happening now, and in that case it will be a long way down...

As Anne Givaudan wrote in « Les dossiers sur le gouvernement mondial » ("The World Government Files") : *"Technology without love leads to the desiccation of our planet or of ourselves."* To close this chapter, we will therefore conclude that our world needs a big dose of awareness, a strong reaction, in numbers, and a lot of love to finally see a better reality take hold.

### **9. THE SITUATION AS OF JULY 2020 :** **EXTREME MINIATURIZATION : NANOCHIPS, NANOPARTICLES & VACCINES**

*"We'll have nanobots that... connect our neocortex to a synthetic neocortex in the cloud... Our thinking will be a.... biological and non-biological hybrid."*

— Ray Kurzweil, TED 2014

This chapter has been added at the end of this book to give you the latest news and updates (as of July 2020) concerning the described technologies. It will probably also be the last modification made to this text, therefore its probable "final version"... unless there is an imperative necessity requiring new additions.

Here we are now in July 2020 ... What has been going on in recent years ?

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

Well, in Europe, new companies producing chip implants for humans popped up, such as the **"Dangerous Things"** company (cf. <https://dangerousthings.com/>) - you will note and enjoy how "considerate" these implanters are : they warn you themselves that what they sell and implant are "dangerous things" !).

The firm named VeriteQ (formerly known as VeriChip) was taken over in 2016 by a company named **Jamm Technologies** (cf. <https://www.jammtech.co/>). The name keeps changing, but the evil product and the abject ideas behind it, remain...

An odious British firm named **BioTeq** now sells subcutaneous RFID chip implants (see <https://bioteq.co.uk/>) and provoked reactions - notably from trade unions - because it wanted to chip people working for some mephitic companies which were requesting this "solution" (cf. <https://www.theguardian.com/technology/2018/nov/11/alarm-over-talks-to-implant-uk-employees-with-microchips>).

A company called **Biohax** offers the same subcutaneous horrors in Sweden and Italy (see <https://www.facebook.com/BiohaxInternational/> and <https://www.facebook.com/biohaxItalia/>).

**Sweden implanted more than 4,000 workers with subcutaneous RFID chips** (cf. <https://fr.theepochtimes.com/milliers-de-suedois-se-implanter-puce-main-591239.html>). The European Union, far from prohibiting these highly liberticidal and perilous microchips, released an official document regulating the chipping of workers - which means that it de facto ACCEPTED this evil technology (cf. [http://www.mediafire.com/file/94sgv4ikjm2diit/Chip\\_Implants\\_for\\_workers\\_EU\\_Parliament\\_IPOL\\_S\\_TU%25282018%2529614209\\_EN.pdf/file](http://www.mediafire.com/file/94sgv4ikjm2diit/Chip_Implants_for_workers_EU_Parliament_IPOL_S_TU%25282018%2529614209_EN.pdf/file)) !

**The megalomaniac billionaire, Elon Musk, owns his own brainchip business called Neuralink** (see <https://www.neuralink.com/>), and bragged about his resolution to implant humans, allegedly to "solve health problems", but above all with the transhumanist aim of merging humans and artificial intelligence in the long term (cf. <https://www.lanceurderte.info/2020/05/31/elon-musk-est-un-fou/>) !

As early as 2018, the European Parliament worked on a **vaccine passport** (cf. <https://olivierdemeulenaere.wordpress.com/2020/05/28/lunion-europeenne-planifie-un-passeport-de-vaccination-depuis-2018/>). To download the official document, click on the following link: [https://www.mediafire.com/file/lb60jjc2wqvbtfg/European\\_Commission\\_Vaccination\\_2019-2022\\_roadmap\\_en-1.pdf/file](https://www.mediafire.com/file/lb60jjc2wqvbtfg/European_Commission_Vaccination_2019-2022_roadmap_en-1.pdf/file)).

**The United (Abomi)Nations (UN) recognized for the first time the existence of people who have been chipped against their will and without their knowledge (the "targeted individuals"), and started an investigation "in order to ban cybertorture"** (cf. <https://nanobrainimplant.com/2020/03/09/un-starts-investigation-to-ban-cyber-torture/> and <https://www.theguardian.com/law/2020/feb/21/un-rapporteur-warns-of-rise-of-cybertorture-to-bypass-physical-ban?fbclid=IwAR0mIvFNEpODW8KspG0XulW8MqkmzSSiO2gskOOgHicfxRjCTgKWV3vjlh0>). Knowing the sulphurous reputation of this world organization, I personally fear that, while recognizing and denouncing these crimes, it will be the first in line to commit them.

There is now a European coalition's task force aiming to "fight against cybertorture" and to "influence European legislation" on this subject (please understand that these technologies will therefore also be **recognized** by the EU and will be regulated one way ... or another). This task force has a website (cf. <https://cyber-torture.com/>). It should be noted that individuals who are the victims of cyberorture are not only tortured from a distance through chip implants, but also through other technologies (psychotronic weapons, waves and microwaves, etc.).

The most striking fact regarding the implants' evolution, is that miniaturization has reached a formidable level : the level which makes chips invisible to the naked eye. Nanochips and nanoparticles, from now on, are really nanometric in size, but that does not prevent their use

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

for harmful purposes. On the other hand, it further complicates the task of getting the message across to people, because unfortunately, for the majority, what cannot be seen does not exist.

**And what is clear is that the 2020 deadline that I had given you for the generalization of chip implants was so precise, that it amazed me !** It's also the guarantee and the proof that my work of information, commentary and translation over all these years, has been meticulous and serious.

2020 had not even started yet that a **new false flag operation** was underway : the so-called "health crisis" of the **coronavirus (Covid-19) "pandemic"** and its parade of media and political lies, health scandals, governmental confusion, demolition of freedoms and privacy, inversion of values, revelations about our time and ... liberticide technologies.

This type of "medical" false flag operation had already been attempted before, during the so-called bird flu (H1N1) health crisis back in 2009-2010, but it had failed miserably, mainly thanks to the whistleblowers' vigilance and action on the web. It should be noted that already at the time, the general population had started to give in to the fake news of the political and mainstream media fearmongers.

But where mass media lacked precision and credibility with their infamous lies in 2010, lessons were learned and flaws were corrected. The global campaign against the coronavirus has proven to be far more vicious and manipulative - and also better prepared - than the previous avian flu attempt.

From November 2019, a **man-made virus** (cf.

<https://www.youtube.com/watch?v=9TYISMYJrKI> or

[https://www.mediafire.com/file/s17vm85ux3nj9oz/Pr. Luc Montagnier sur Cnews au sujet du Coronavirus.mp4/file](https://www.mediafire.com/file/s17vm85ux3nj9oz/Pr._Luc_Montagnier_sur_Cnews_au_sujet_du_Coronavirus.mp4/file) ) coming from a laboratory in the city of Wuhan, China, very

unfortunately "escaped" from said lab to contaminate the population, creating an epidemic which spread almost everywhere on the globe. Alas, I'm afraid it is not the last time that the Frankensteins working in labs will mutate a coronavirus : indeed, immoral scientists are now selling synthetic DNA of coronavirus to other scientists, so that any laboratory can "tamper" and genetically modify coronaviruses. As a proof, I highly recommend you to read the following French report on [http://www.piecesetmaindoeuvre.com/IMG/pdf/un\\_virus\\_scientifreak.pdf](http://www.piecesetmaindoeuvre.com/IMG/pdf/un_virus_scientifreak.pdf) or via

[https://www.mediafire.com/file/8m0q5w6hg9x3res/Un\\_virus\\_scientifreak Pi%E8ces et Mai n-d%27Oeuvre.pdf/file](https://www.mediafire.com/file/8m0q5w6hg9x3res/Un_virus_scientifreak_Pi%E8ces_et_Mai_n-d%27Oeuvre.pdf/file) .

In just a few months, the new Covid-19 disease spread quickly over the entire planet thanks to (deliberate, or accidental ?) blunders and barely credible security breaches on the part of the authorities and governments.

As of March 2020, a large part of the planet's population was "confined", that is to say, locked down. Many countries - urged on by certain corrupt "experts" sold to multinationals producing medicines and vaccines, and pushed by the World Health Organization (WHO) and those who fund it - opted for this lockdown "solution". Please note that we are not talking about the understandable quarantine measures for the sick or infected. No. We are talking here about the confinement/lockdown of the whole population, including healthy people ! This constitutes a disastrous "world premiere" on several levels : never in the course of history had there been the confinement of healthy populations, and never had the movement been internationalized to this point. Finally, never had the constitutional freedoms of multiple countries been "put on hold" at such speed, being *sine die* replaced by "exceptional measures" taken under the fallacious pretext of "health emergency".

Regarding the multiple errors made by political leaders and health care "experts" during Covid-19, some books have been published, including the excellent book by French professor Christian Perronne, « *Y a-t-il une erreur qu'ils n'ont pas commise ?* » ("Is there one error that they didn't commit ?").

The fact is, you see, the New World Order (NWO), since the terrorist attacks of September 11, 2001, has changed its register, now opting for "medical" terror – a terror stemming from germs phobia, which has been reactivated through coronaviruses. It is obvious that people - who were

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

made mad with fear by the incessant daily brainwashing carried out by television, newspapers, radios and big international websites and, above all, by the instrumentalization of the atavistic fear of dying because of a disease that has become global - are then much more inclined to give up their freedoms for a little "security", than during a terrorist attack, which is much more localized. Placed in this context, people are far more eager than usual to OBEY blindly to those who lead them, and to ACCEPT any "solution" proposed by these dark leaders.

**Question : does the NWO still have other plans in store ? Of course ! Another event that could help apply the shock doctrine on a global scale, would be a financial crisis or, worse, an economic collapse. And, this is bad news, it happens that the state of the world economy has been – and still is - in a very bad condition since 2005-2006... The recapitalization of criminal, gambling bankers (the banksters), as well as the central banks' policy of quantitative easings (= printing money that's not guaranteed anymore by metallic gold), further heightened by the economic impact of the planned coronavirus pandemic, led us dangerously close to such a collapse.**

But let's go back to the coronavirus crisis.

Following the confinement (lockdown) of a large part of the world population, coercive measures, abject laws and liberticidal technologies were adopted by the governing elite and imposed on the peoples in order to bring populations in line. Between various contradictory statements made by their "responsible" politicians, those populations had fallen into a state of psychological sideration. Just like the Pied Piper of Hamelin, the governments - who were led themselves by the WHO and the health "experts" - led the shocked populations, as if under hypnosis, towards new and sinister horizons ...

In various countries, the elderly living in nursing homes were quickly abandoned and left to fend for themselves, although they constituted - due to their weakness linked to age or to an already precarious state of health - the ideal target for the new coronavirus. This is how death rates of the elderly peaked in the industrialized Western countries which had all the health care structures, plus competent and trained staff. This experience therefore appeared to be passive euthanasia. France, for its part, undoubtedly achieved the worst and most notorious international score, since a directive emanating from the State allowed active euthanasia (meaning actual *murders*) of the elderly in nursing homes by administering them Rivotril, without consult or seek consent from anyone (cf.

[https://www.legifrance.gouv.fr/jo\\_pdf.do?id=JORFTEXT000041763328](https://www.legifrance.gouv.fr/jo_pdf.do?id=JORFTEXT000041763328) and <http://www.brujitafr.fr/2020/04/euthanasie-rendue-legale-en-ehpad-c-est-acte-rivotril-clonazepam-et-paracetamol-injectables-utilisation-derogatoire-dans-le-cadre-de> ) !

The coronavirus was also an opportunity to implement a whole bunch of liberticidal technologies : from thermal cameras to surveillance drones, smartphone tracking applications, the development of the 5th generation of mobile phones (5G) using carcinogenic microwaves, facial recognition cameras or even... the progress of the cashless society (because banknotes and coins, "are dirty and full of viruses and bacterias"), it was a real fair whose main theme was the killing of individual freedoms and constitutional rights !

The problem, in most countries, was at first legal: the government "legally" granted itself special powers in order to manage the "emergency" of the crisis without worrying, of course, about the cumbersome rights and freedoms of citizens. From there on, democracy was suspended and replaced by... something else. Citizens' rights and freedoms were therefore put on "pause". Such procedures should NEVER be made possible under any circumstances, for they represent a colossal danger to the ideals, rights and freedoms guaranteed by democracy.

**However, it was on the medical level that the very dangerous nanochips and nanoparticles arose... and that we finally learned what they are capable of.**

From the start of this "plandemic" (= planned pandemic), a French doctor, Prof. Didier Raoult, from the IHU in Marseille, one of the best - if not THE best - virologists on the planet, involuntarily became a pain in the neck for the oh so well oiled plan of the globalists, which earned him death threats : Professor Raoult indeed proposed an effective remedy to treat the

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

coronavirus, especially during the early stages of the disease : this dual therapy included on the one hand the use of hydroxychloroquine, a well-known and successfully antimalarial drug that was used for 70 years with very few known side effects, not only against malaria, but also against lupus and rheumatoid arthritis, and on the other hand an antibiotic called azithromycin. This treatment, in addition to treating and curing the early stages of the disease in about a week, was inexpensive : 20 to 30 euros.

Raoult treated and cured thousands of cases in his hospital in Marseille, and some countries adopted his effective treatment (Algeria, Morocco, Togo ...). The President of the United States, Donald Trump, adopted this treatment as a preventive measure. Nevertheless, Raoult disturbed the pharmaceutical industry's and the WHO's juicy plans. Because of their greed and endless venality, they had planned to win big money thanks to new drugs and molecules with multiple and harmful side effects (such as Remdesivir), and... thanks to new, expensive vaccines.

Russians used another antimalarial drug to fight Covid-19 : mefloquine. Finally, in Madagascar, a natural remedy based on the plant named artemisia annua was discovered and promoted by the president of that country. Togo also adopted this natural medication.

In Western Europe, however, one constant remained : none of these remedies for Covid-19 were actively promoted, nor made widely available. They preferred to put severe cases on a ventilator, and try other more innovative, less effective and, above all, more expensive and more toxic products, which brought more money to Big Pharma. In some cases, governments played the meddling game, blithely infringing on the work of doctors. All in all, we witnessed a criminal refusal of medical care ; as a result, death rates from the coronavirus skyrocketed in that part of the world, and became the highest on the planet !

The media's scavengers were the heralds of this death policy, even going so far as to disseminate and defend botched and fraudulent studies published in prestigious "scientific" journals now infiltrated and rotting due to the corruption reigning within Big Pharma. It soon became clear that these studies were funded by the enemies of hydroxychloroquine, that is, pharmaceutical companies and vaccine producers. One such fraudulent study was the Lancet's, but the inconsistencies and data were so improbable, that the study was shot down in flames by real doctors. Humiliated, the WHO was forced to back down on this point, and to deny the data included in this document.

Censorship came to the rescue of the governments', pharmaceutical companies' and mainstream media's official version, whose lies, inconsistencies, and contradictory statements were seriously undermined by the - much more serious and truthful - information disseminated voluntarily by whistleblowers on the Internet. As a result of this foul censorship, now anyone who did not adhere to the official version of the authorities and the Single Thought became an "enemy" who had to be silenced ! The social networks' multinationals (Facebook, Twitter, Youtube, Google...) played, in this respect, a role that was as mephitic as it was repugnant.

From the outset of Covid-19, governments were in contact with the World Health Organization (WHO) and with certain medical "experts" – mostly, people who were crippled by conflicts of interest with the pharmaceutical industry. This is how Western Europe citizens owe a 2 and a half months lockdown to a sorry figure named Neil Ferguson, from London's Imperial College. The same Ferguson, during the confinement, did not hesitate to cross London to join his mistress, when everybody else was locked down (cf.

<https://blog.nomorefakenews.com/2020/05/07/professor-lockdown-neil-ferguson-resigns-over-sex-scandal/> ). This obviously made the delights of British tabloids. Ferguson had also announced millions of deaths related to H1N1 in 2009-2010, and did the same for the new Covid-19 epidemic. Other dubious and crooked experts of the same kind were called in to help for the occasion, filling the ranks of governmental councils.

From the launch of "Operation Lockdown", and even though some governments had previously minimized, if not ignored, the danger of this new disease, the same leaders called on multinational pharmaceuticals **to test new drugs and, of course, to find a vaccine against the disease**. This took place before we even knew whether the Covid-19 would last over time or not, would mutate or not, would weaken or, on the contrary, would become more virulent over the months.

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

Note that the Covid-19 crisis also served as a pretext to... chip people ! Indeed, Benjamin Netanyahu wanted children to be chipped during the deconfinement and their coming back to school (cf. <https://www.ipost.com/israel-news/benjamin-netanyahu-suggests-to-microchip-kids-slammed-by-experts-627381> - and please remember that children are a priority for the New World Order scumbags) ! Fortunately, this vomitive proposal was opposed by his scientific advisers, but not on an ethical basis or in defense of freedoms, unfortunately. The danger therefore continues to hover over the heads of Israeli citizens, like a sword of Damocles ...

But the most shocking and most appalling came from the blind obedience and total lack of reaction of the great majority of citizens in various countries, who endured without a word the confinement and the anti-constitutional, liberticidal and tyrannical measures related to the so-called "fight" against Covid-19.

Now, let us talk about the WHO. This globalist institution has, among the "sponsors" who fund and manage it, a remarkable ally : Bill Gates, former boss of Microsoft and co-director of the Bill and Melinda Gates Foundation. Another great advocate and sponsor of the WHO is the Global Alliance for Vaccines and Immunizations (GAVI), which is also funded by Bill Gates. In fact, Gates funds countless pharmaceutical companies, research laboratories and non-governmental organizations through "grants". All in all, Gates has more power within the WHO than the President of the United States ! So we can see that the WHO is "totally independent" and "not at all influenced" by Big Pharma... Above all, we can also notice that Gates and the vaccines and drugs multinationals are actually corrupting the healthcare and medical industry on a global scale.

As I write this, the WHO is headed by a certain Tedros Adhanom Ghebreyesus, of Ethiopian origin. The man assumed his role as Director General of WHO on July 1, 2017. Previously, he was Minister of Health in Ethiopia, a country ruled by a repressive government. As the Ethiopian Minister of Health, he ignored 3 cholera epidemics that took place in Ethiopia in 2006, 2009 and 2011. He was the Minister of Foreign Affairs when, in November 2015 and August 2016, demonstrations were violently repressed by the police, causing the death of hundreds of people. In a nutshell, as we can see, he's a "perfectly respectable" character, coupled with an "excellent defender" of health ! (Cf. <https://www.france24.com/fr/20171023-oms-onu-afrique-ethiopie-dr-tedros-adhanom-ghebreyesus-robert-mugabe-ambassadeur> ).

Let's now look at Bill Gates's profile... Because this is where things get interesting regarding nanochips and nanoparticles.

This sinister guy grew up in a well-off family of bankers. His parents directed and worked for Planned Parenthood, and were therefore involved in limiting the population. He got involved and then headed a world-famous company that earned him tons of money (he was named the richest man in the world in 1996): Microsoft, a multinational company that can boast to be one of the few companies to have ever been convicted of violating the US antitrust law (cf. <https://www.universalis.fr/evenement/3-28-avril-2000-microsoft-juge-coupable-de-violation-de-la-loi-antitrust/> ).

For years, Microsoft was also immersed in maneuvers that were invading the privacy of its customers and users (cf. <https://www.qinjfo.com/actualites/logiciels/windows-10/windows-10-collecte-donnees-microsoft-accuse-de-violation-de-confidentialite-20160818> et <https://www.zebulon.fr/astuces/securite-systeme/46-l-espion-qui-venait-de-microsoft.html> ).

In 2016, Gates created a non-governmental organization (NGO) named ID2020, intended to confer a "digital identity" that would be "universal" (cf. <https://id2020.org/> ). This organization is still relevant today. It is responsible, along with GAVI, for the chipping of homeless people in Austin, Texas, through ... vaccination, since 2019 ! (See <https://www.infowars.com/report-austin-homeless-being-implanted-with-trackable-microchips/> ). Very recently, this criminal association hired... Blythe Masters, the JP Morgan banker to whom we owe the current economic crisis (cf. <https://www.ledgerinsights.com/id2020-digital-assets-blythe-masters/> and <https://www.jovanovic.com/angeQDM.htm> )! As we can see, the world of this evil global elite is very small indeed ...

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

In 2020, Bill Gates and Microsoft were outlawed in Russia by President Vladimir Putin himself **for spying on millions of Russian citizens and people from other countries**. Putin decided to remove Microsoft's Windows operating system from computers in Russia, as well as all softwares produced by Microsoft, and replace them with Russian softwares (see <https://europeansworldwide.wordpress.com/2020/05/15/putin-closes-gates/> ).

Gates gave up all operational functions within Microsoft in 2008. In 2014, he stepped down as chairman of the Microsoft board.

**In March 2020 - you will notice that this date corresponds to the start of the lockdown related to the coronavirus in Europe, and it is no coincidence - the press announced that Bill Gates was leaving Microsoft's Board of Directors**, and that he would only retain the office of technical advisor to the company's executives. He then devoted himself, with his wife Melinda Gates, to his foundation, the Bill and Melinda Gates Foundation, which he had created back in 2000. (Cf. [https://fr.wikipedia.org/wiki/Bill\\_Gates](https://fr.wikipedia.org/wiki/Bill_Gates) ).

Having no medical training, Bill Gates now manages, through his foundation, a "charity" that is based on **the promotion and sale of ... vaccines** (see <https://www.gatesfoundation.org/> ).

Mr. Gates, during this epidemic, was THE go-to person: funding the WHO, GAVI and numerous pharmaceutical companies, giving grants to vaccine manufacturers, advising heads of state, making outrageous statements in the media, we heard about him everywhere. **From the start of lockdown, he called for a national coronavirus tracking system, and claimed we would "need" a digital certificate to prove our vaccination. He also said that those who did not receive the vaccine would no longer be able to travel, and that people "would have no choice"** (cf. <https://magazinelavoixdedieu.wordpress.com/2020/03/20/bill-gates-demande-un-systeme-national-de-suivi-des-personnes-la-puce-par-rapport-au-coronavirus/> , <https://magazinelavoixdedieu.wordpress.com/2020/03/20/bill-gates-le-coronavirus-signifie-que-nous-avons-besoin-de-certificat-numerique-puce-marque-de-la-bete-pour-prouver-que-nous-avons-bien-recu-le-vaccin-gates-croit-clairement-que-le-public-a/> and [https://www.mediafire.com/file/0ic4rf5apdx1mqv/Bill\\_Gates\\_-\\_Vous\\_n-aurez\\_pas\\_le\\_choix.mp4/file](https://www.mediafire.com/file/0ic4rf5apdx1mqv/Bill_Gates_-_Vous_n-aurez_pas_le_choix.mp4/file) ).

In the prostituted Western media, he was given a very positive image : that of a philanthropist struggling to bring healthcare to the poor, including in Third World countries. But behind this fairytale image and blatant media lie, in fact, a much darker reality was hidden : the fact that Gates is a eugenicist and a criminal against humanity. To reach this profound truth, it is necessary to do some research, and to deconstruct the media image given in the West to Bill Gates and his wife, Melinda.

First of all, his role as a "philanthropist" is utterly overused and false ; it is only a decoy intended to trap the weakminded and those who still trust the manipulative and deceptive mainstream media. **An entire book has been published on Gates' false philanthropism** : this work, published in French in 2019, is entitled **"L'Art de la Fausse Générosité – La Fondation Bill et Melinda Gates"** ("The Art of False Generosity - The Bill and Melinda Gates Foundation"), and was written by Lionel Astruc. In this book, the author denounces the fact that Gates' philanthropic operations are akin to a tool which is beneficial to multinational companies that are extremely harmful to the environment, health and social justice, and are sometimes also serving Bill Gates' own economic interests.

The main culprit does not deny that his involvement in the vaccine industry is the most profitable investment he has ever made (cf. <https://www.cnbc.com/2019/01/17/bill-gates-says-this-is-the-best-investment-he-has-ever-made.html> ).

But this does not end here. **In Third World countries, Gates and his mass vaccination campaigns have claimed tens and even hundreds of thousands of lives, especially in India, Africa, and Pakistan. So it turns out that the "philanthropic benefactor" caused, with his vaccination projects, true genocides !** Complaints were lodged in India, but never resulted in any concrete result. After a few years of standby, Gates even returned to India to continue the vaccination program. **In Kenya, Gates and his accomplices inoculated thousands of uninformed women with vaccines which, intriguingly, left them completely sterile** (Cf.

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

<https://detenganlavacuna.wordpress.com/2014/10/10/bill-gates-acusado-en-india/> and <https://strategika.fr/2020/04/16/robert-f-kennedy-jr-denonce-le-programme-mondial-de-vaccination-de-bill-gates/> ).

**This desire to make people sterile is not trivial.** From a young age, Gates and his parents discussed "population issues" as a family. In May 2009, a meeting between Sir Paul Nurse, who was then President of Rockefeller University, Warren Buffet, David Rockefeller Jr., George Soros, New York Mayor Michael Bloomberg, Ted Turner, and Oprah Winfrey, **revolved around how these billionaires could use their wealth to curb population growth** - without the input or interference of government agencies (cf. <https://archive.is/RAwFf> or <https://www.mediafire.com/file/s03y0sr4qg9wb6z/Billionaire-club-in-bid-to-curb-overpopulation.doc/file> ). They had met at Gates's request to discuss how "to join forces to overcome political and religious obstacles to this change." **Drawing inspiration from Gates, they agreed that the problem of overpopulation was a priority. A consensus emerged that they would support a strategy in which population growth would be treated as a potentially disastrous environmental, social and industrial threat ...** (cf. [https://articles.mercola.com/sites/articles/archive/2020/06/13/bill-gates-agenda.aspx?cid\\_source=dnl&cid\\_medium=email&cid\\_content=art1HL&cid=20200613Z2&et\\_cid=DM560659&et\\_rid=892869608](https://articles.mercola.com/sites/articles/archive/2020/06/13/bill-gates-agenda.aspx?cid_source=dnl&cid_medium=email&cid_content=art1HL&cid=20200613Z2&et_cid=DM560659&et_rid=892869608) ).

And this is where we understand better that Bill Gates is **a eugenicist and a criminal, whose major goal is to reduce the world population (depopulation) by all means.** No wonder, then, that he used poisonous vaccines to sterilize thousands of women, or to kill innocent people in the developing world !

**His wife, Melinda Gates, is as venomous as he is** (birds of a feather flock together) : during the covid-19 epidemic, **she proposed that people of color would be among the first to receive the vaccine** (cf. <https://cogiito.com/a-la-une/le-couple-gates-se-sentant-protege-par-sa-fortune-enchaine-les-declarations-eugenistes-mondialiste/> et <https://time.com/5847483/melinda-gates-covid-19/> ). **A vaccine which, as we will see, is even more dangerous than the disease it is supposed to fight.** Let us remember, once again, that the Gates are responsible for tens of thousands of deaths in Third World countries.

A criminal rarely acts alone. Bill Gates is also strongly believed to have worked out some plans with Jeffrey Epstein, the notorious child sex trafficker. Gates has of course always denied meeting Epstein, but evidence seems to confirm otherwise (cf. [https://articles.mercola.com/sites/articles/archive/2020/06/13/bill-gates-agenda.aspx?cid\\_source=dnl&cid\\_medium=email&cid\\_content=art1HL&cid=20200613Z2&et\\_cid=DM560659&et\\_rid=892869608](https://articles.mercola.com/sites/articles/archive/2020/06/13/bill-gates-agenda.aspx?cid_source=dnl&cid_medium=email&cid_content=art1HL&cid=20200613Z2&et_cid=DM560659&et_rid=892869608) ).

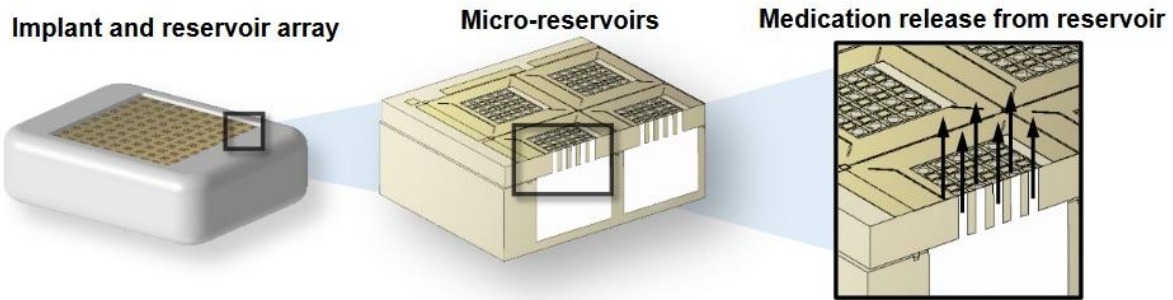

But the horrors of this "philanthropist" do not end here ! Because **Bill Gates's other main purpose is about control of populations and individuals. A control that he sees as absolute and total. Controlling all aspects of our daily life, from where we go, to who we meet, what we buy and what we do. And the megalomaniac psychopathy pushing him to achieve this goal precisely culminated with the Covid-19 health crisis ...**

**His project relies on the work of GAVI, the Vaccine Alliance, founded by the Gates Foundation in partnership with the WHO, the World Bank and various vaccine manufacturers.**

**In 2014, it was announced that Microchips Biotech, Inc., a Lexington, MA company, had developed a new form of contraception: "a wireless implant that can be turned on and off using a remote control, and which is designed to last up to 16 years "**! This company has obviously changed its name since (a constant for this kind of immoral business), and is now called **Daré Bioscience** (cf. <https://darebioscience.com/microchips-biotech/> ). There is still talk on their website about the infernal contraceptive implant described above (cf. <http://drugdeliveryexperts.com/wp-content/uploads/2015/03/LAII-2020-Dave-Friend-Dare-Bioscience-6FEB2020.pdf> ).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

Daré Bioscience's contraceptive microchip

This idea arose when Bill Gates visited Robert Langer's MIT (Massachusetts Institute of Technology) laboratory back in 2012 and asked him whether it was possible to **create an implantable birth control device, which could be remotely activated or deactivated.**

Langer oriented Gates to the controlled-release microchip technology he had invented and licensed to Microchips Biotechnology, **and the Gates Foundation gave the company \$ 20 million to develop these implants.**

In 2017, GAVI decided to provide each child with a **digital biometric identity**, which would simultaneously keep the child's vaccination records. **Without such a digital biometric identification database, a 100% vaccination rate simply could not be achieved**, said GAVI's CEO, Seth Berkley.

**So, you understood: the purpose is to vaccinate everyone. And by "everyone", we must understand the whole world.**

Shortly afterwards, GAVI became a founding member of **the ID2020 Alliance** (cf. <https://articles.mercola.com/sites/articles/archive/2020/05/13/digital-vaccination-certificate.aspx> ), alongside ... **Microsoft** and ... **the Rockefeller Foundation**. **The aim of this alliance was to inject, at the same time as the vaccine, the "2020 identifier" (ID2020) which would allow the distribution, alongside the vaccine, of a digital biometric identifier. And it was from this point that the nanoparticles kicked in.**

In 2019, Gates collaborated again with Langer to develop a **new technique for injecting vaccines**. This resulted in the dangerous technology that I wish to tell you about : **the "quantum dots" vaccines**. Cf. <https://www.informedchoicewa.org/education/bill-gates-and-intellectual-ventures-fund-microchip-implant-vaccine-technology/>

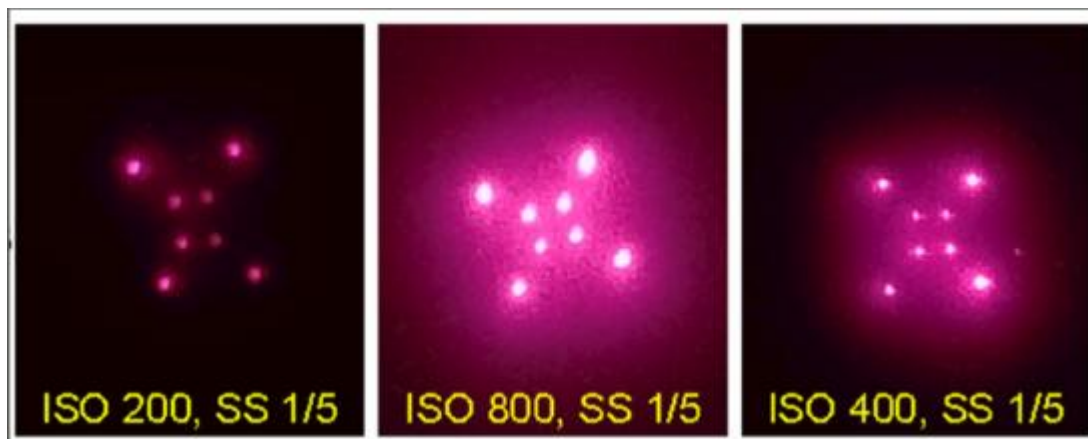

This is how the quantum dots and micro-needle array vaccine works. The vaccine dose, the nanoparticles and the luciferase are contained within the sugar micro-needles, and are released once they melt due to the heat of the body and blood. The smartphone with near infrared light appears in the last image on the right.

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

This type of vaccine comes in the form of a square or rectangular vaccine patch that's 2-3 cm on the side, with micro-needles arrays. These micro-needles are made of sugar. The patch is lightly pressed upon a person's skin. The micro-needles then penetrate the epidermis and dermis of the person in question. With the heat of the body, the micro-needles, which are made of sugar, melt. **This is when the vaccine dose is released into the body, along with the famous ID2020 (identifier 2020). But what exactly does this identifier consist of ? Well, it consists of nanoparticles or nanochips of molecular size, and of a bioluminescent enzyme called ... luciferase (cf. <https://www.nowtheendbegins.com/bill-gates-human-implantable-quantum-dot-microneedle-vaccine-delivery-system-needs-luciferase-666/> ) ! Luciferase binds to the dermis and, when a smartphone with a special application that emits near-infrared light is passed over the vaccination zone, the skin, in which the enzyme is bound, emits a bioluminescent light under dots shape. This is how it can be verified that a person has been vaccinated ... or not.**

Here are the quantum dots that appear thanks to the bioluminescent enzyme called luciferase, once a smartphone with a near infrared light illuminates the skin of the vaccino-chipped person.

**And as if by magic, the tracing (tracking) applications of people suspected of being infected with the coronavirus, use an application installed on ... smartphone. Another coincidence ? I'll let you come to your own conclusion, but as far as I'm concerned, it's clear that you're starting to get people used to the idea of being tracked everywhere using a smartphone.**

**But what about nanoparticles ? What are they used for ?**

Well, these tiny nanoparticles or nanochips can hold data, allowing for precise identification of the person ... and much more (cf. <https://blog.nomorefakenews.com/2020/05/25/covid-vaccine-what-else-could-they-put-in-the-shot/> et <https://cogito.com/a-la-une/analyse-du-covid-19-et-de-la-nanotech/#comments> ).

In order to be more specific about the possibilities of these nanoparticles/nanochips, I found an article explaining that **a team of researchers from Buffalo discovered how to use nanoparticles to be able to ... remotely control the behavior of individuals !** (Cf. <https://nanobrainimplant.com/2013/12/02/mind-control-scientists-have-discovered-how-to-use-nanoparticles-to-remotely-control-behavior/> and <http://www.buffalo.edu/news/releases/2010/07/11518.html> ). **The use of nanoparticles/nanochips in vaccines is therefore not trivial, and further reinforces the goals of total biological control of individuals which, from the start, have been among the objectives to be achieved with regard to chip implants !**

Please note that we had already reported before that **nanoparticles can have harmful, and even fatal, consequences for health** (cf. <https://www.mondialisation.ca/nanoparticules-dans-les-vaccins-non-test-s-contre-la-grippe-porcine/15207> ).

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

During the coronavirus pandemic of 2020, the abominable Bill Gates rushed to propose the creation of a vaccine "against covid-19". Having several vaccine companies under his control, Gates funded them so that the vaccine would be produced as quickly as possible. One of these companies is called **Moderna Inc.** (see <https://www.modernatx.com/> ).

On the other hand, a report (cf. <http://www.wikistrike.com/2020/05/alors-que-le-vaccin-de-moderna-contre-le-covid-19-est-le-candidat-vaccin-n-1-la-recente-promotion-par-la-societe-des-vaccins-a-editi> ) informed us that **the Bill and Melinda Gates Foundation was not the only one to fund Moderna Inc. : the DARPA (Defense Advanced Research Projects Agency, a section of the US Army) also invested in this company !** Moderna Inc. worked on a "quantum dots vaccine" which not only contains the vaccine dose and the nanoparticles + luciferase "2020 identifier", but which, moreover, is a **messenger RNA vaccine, and is part of the family of "gene-editing vaccines"**.

It should be noted that Moderna's messenger RNA vaccines had never produced an immune response before, and **it was with the help of DARPA that Moderna would have solved this problem ... by adding nanoparticles to the vaccine !** Moderna received this funding from Gates and DARPA several years before the coronavirus crisis, but it wasn't until 2020 that it would have succeeded in creating a messenger RNA vaccine that, for the first time, would have caused an immune response.

Here, we come back to the **concept of liquid crystals vaccines** since DNA and RNA are liquid crystals. I remember with nostalgia one of the first online documents I read on chip implants and vaccines. It was the document of the Canadian Serge Monast, entitled «Dévoilement de la conspiration relative au plan de marquage de l'humanité» ("Unveiling of the conspiracy relating to the plan of marking of humanity"), and in which Mr. Monast spoke about the dangers of chip implants and liquid crystals vaccines (cf. <https://www.mediafire.com/file/c2le3img5rlqi07/monast-serge-dc3a9voilement-du-complot-relatif-au-plan-de-marquage-de-lhumanitc3a9.pdf/file> ). Despite this man's warnings (made during the 1990s), it is clear that no one saw fit to take his alerts seriously, or in any case to act to avoid the worst ... He died in suspicious circumstances, but populations continued to sleep. And where did it get us ? Straight to messenger RNA vaccines, which correspond to what Serge Monast called "liquid crystals vaccines", and against which he warned us ! Will apathy, immobility, blind obedience to hierarchy and lack of wisdom be what leads humans to their own downfall !?

But back to gene editing vaccines (DNA or messenger RNA vaccines). **The first problem with these vaccines is that their effectiveness has never been proven. The second problem is that their principle consists in integrating synthetic genetic material produced by laboratories and with unknown effects which, once injected, changes forever the genetic code of the vaccinated person. In other words, it transforms vaccinated individuals into genetically modified organisms (GMOs) ! This can have excessively serious, permanent and irreversible repercussions on the patient's health, of course !**

Moderna's chief medical officer, Israeli Dr. Tal Zaks, himself admits that **this amounts to "hacking the software of life" !** (Cf. <http://www.wikistrike.com/2020/05/alors-que-le-vaccin-de-moderna-contre-le-covid-19-est-le-candidat-vaccin-n-1-la-recente-promotion-par-la-societe-des-vaccins-a-editi> ). This does not prevent him from sleeping, apparently, nor from continuing his abject experiments ...

To make my point even clearer, we are going to take a report that tells us about the results and consequences of the first Moderna covid-19 vaccine trials on human bodies. In this report, a scientist named Ian Haydon, who had volunteered to test the vaccine during a TV show and who had been chosen precisely for his good health (emphasis added !), paid dearly for this madness : **shortly after being injected with the vaccine, he developed serious side effects, and was ill like never before ! He experienced muscle pain, vomited, lost consciousness, and had a fever of nearly 103.4° Fahrenheit (40° Celsius) 12 hours after the injection ! And 20% of the volunteers who got this vaccine developed serious side effects !** Cf. <https://coqito.com/a-la-une/une-victime-dun-vaccin-experimental-covid-19-se-declare-navoir-jamais-ete-aussi-malade-de-sa-vie-apres-avoir-recu-une-injection-de-vaccin-experimental/> and <https://childrenshealthdefense.org/news/modernas-guinea-pig-sickest-in-his-life-after-being-injected-with-experimental-vaccine/> .

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

Of course, Moderna is not the only company trying to produce a vaccine against Covid-19. Another similar company, funded by the US Department of Defense as well as by the CEPI (Coalition for Epidemic Preparedness Innovations, funded by Davos World Economic Forum and ... by the Bill and Melinda Gates Foundation), is the firm named Inovio (see <https://www.inovio.com>). Inovio's Covid-19 vaccine is called "INO-4800". It is a DNA vaccine (gene editing vaccine) which also brings foreign DNA into the body. This DNA integrates your genetic heritage, modifying it irreversibly, with potentially disastrous effects. This vaccine is injected twice and at a 4 week interval through a syringe, but it needs to be "activated" by a machine "somewhat resembling a toothbrush" which delivers a "mini electrical pulse" allowing foreign DNA to penetrate the cells in your body (and to activate, at the same time, the nanoparticles/nanochips ?) ... (Cf. <https://www.lesoir.be/310442/article/2020-06-30/resultats-preliminaires-positifs-pour-un-vaccin-experimental-contre-le>). So it is also a hyper dangerous vaccine.

Finally, there is also a vaccine against Covid-19 that was developed with the help of Glaxosmithkline (GSK), a notorious multinational company producing vaccines. At the time of the H1N1 avian flu in 2009-2010, GSK was criticized because they wanted to add synthetic squalene (a highly toxic material) as an adjuvant to their H1N1 vaccine. We have learned that this multinational company perseveres in its error, since it wants to put in its Covid-19 vaccine not only the same synthetic squalene (under the name AS03), but also polysorbate 80 (see <https://coqiito.com/societe/gsk-recycle-son-adjuvant-problematique-en-vaccin-covid-19/> and [https://childrenshealthdefense.org/?p=87582?itm\\_term=home](https://childrenshealthdefense.org/?p=87582?itm_term=home)) ! In other words, two poisons for the same vaccine ... Squalene is notoriously known to be able to induce a "rapid disturbance" which triggers a response called endoplasmic reticulum (ER) stress. An activated ER stress response has been associated with many chronic diseases (cf. <https://www.hindawi.com/journals/scientifica/2012/857516/>), and severe ER stress "also threatens the proper functioning of organs." As for polysorbate 80, it is a "detergent-type synthetic surfactant and emulsifier" whose deleterious effects on female reproductive organs (cf. <https://pubmed.ncbi.nlm.nih.gov/8473002/>) and cell permeability (cf. [https://cancerres.aacrjournals.org/content/25/5\\_Part\\_1/764.abstract](https://cancerres.aacrjournals.org/content/25/5_Part_1/764.abstract)), as well as propensity for oxidative degradation, represent obvious dangers (you will notice once again the aim to sterilize of women, which frequently pops up in this report on microchip and nanochip implants !).

Will this GSK vaccine contain nanoparticles/nanochips ? No one is certain at this time. However, one clue allows us to bet that it will be the case : in the United States, President Trump appointed, in May 2020, Moncef Slaoui to lead Operation Warpspeed. Operation Warpspeed is meant to reach generalized vaccination against Covid-19, and should be carried out by the US army. And you should know that Slaoui, before his appointment, worked at... Glaxosmithkline (GSK), as head of the global vaccine division. He worked for 30 years at GSK and is one of the world experts in electroceuticals (cf. <https://www.nature.com/articles/496159a>), a growing field which seeks to introduce... electrical impulses in the brain via nanotechnology, micro-devices, microchips, implants and other forms of brain-machine interfaces !!! (Cf. <https://coqiito.com/societe/gsk-recycle-son-adjuvant-problematique-en-vaccin-covid-19/> et [https://childrenshealthdefense.org/?p=87582?itm\\_term=home](https://childrenshealthdefense.org/?p=87582?itm_term=home)).

What I am trying to make you understand through this chapter is that the nanochips/nanoparticles are ready, that they allow mind control and that, within a few months (from October 2020), it could well be that the globalists will be implanting them in people's bodies at the same time as the so-called Covid-19 vaccine ! After decades of preparation, I don't think the world's elite wants to miss this unique opportunity ... But of course, I'm neither a diviner nor an oracle. However, know that EVERYTHING is now in place for the globalists to implement their diabolical plan about the marking and total control of mankind ! Forewarned is forearmed ... You will therefore easily understand the reason why I captioned this document "Final warning": it is an authentic cry of distress that I send to you, and an exhortation to react en masse.

In this handling of the coronavirus crisis, chips did not only appear in the vaccine itself. Some syringes, produced by the American company Apiject, have the "optional" possibility of being fitted, at one end, with an RFID chip which will not be injected into people's bodies, but will serve to better TRACK information related to the vaccine, to know where and when this dose

## Microchip and nanochip implants

### Mark of the Beast, the Ultimate Danger – Final Warning

---

was used, and to count the number of people who were vaccinated ! The Apiject company was funded 138 million dollars to produce these syringes. This financial windfall comes from the Department of Health and Social Services, in collaboration with... the Department of Defense (= army). Cf. <https://www1.cbn.com/content/pre-filled-covid-19-vaccine-syringes-may-have-rfid-chip> .

The syringe produced by Apiject and intended for the Covid-19 vaccine. Please note the RFID tag embedded in the plastic...

It should be noted that **in the United States, the military have been requisitioned to vaccinate the population** ... which doesn't do much to reassure citizens, who fear a mandatory vaccination. Cf. <http://conscience-du-peuple.blogspot.com/2020/05/si-justin-trudeau-ou-emmanuel-macron.html> and <https://www.youtube.com/watch?v=xb5p1IHH7qw&feature=share> .

The Nuremberg Code stipulates that "the voluntary consent of the human subject is absolutely essential" (cf. <http://www.frgs.gouv.gc.ca/documents/10191/186011/Code+Nuremberg+1947.pdf/d29861b8-30a7-456e-9a83-508f14f4e6d5> ). The International Covenant on Civil and Political Rights has taken up this prohibition against any involuntary experimentation, in its 1966 text which stipulates (cf. <https://www.ohchr.org/FR/ProfessionalInterest/Pages/CCPR.aspx> , article 7) : "No one may be subjected without their free consent to a medical or scientific experiment." But although the Nuremberg Code and the International Covenant on civil and political rights therefore defend the right to vaccine freedom, the totalitarian way in which the lockdown was generalized in many countries during the Covid-19 crisis leaves a big doubt lingering, and a well-justified fear about an imposed vaccination.

Naturally, in addition to the total biological control nanoparticles that will be present in the next vaccines, the evil globalist conspirators will have to have a global network in order to broadcast their orders to vaccino-chipped individuals by air. **This will likely be done via telecommunication networks and smartphones. The 5th generation (5G) cell phone network will work with pulsed microwaves, which is very harmful to health** (see the following document on the microwave syndrome : [http://www.next-up.org/pdf/Le\\_syndrome\\_des\\_microondes.pdf](http://www.next-up.org/pdf/Le_syndrome_des_microondes.pdf) or [https://www.mediafire.com/file/9x2zdiasc0ro8hj/Le\\_syndrome\\_des\\_microondes.pdf/file](https://www.mediafire.com/file/9x2zdiasc0ro8hj/Le_syndrome_des_microondes.pdf/file)). **But in addition to this, 5G represents a big risk due to its ability to quickly track and process a huge amount of data ; it will allow the online tracking of the data of the objects fitted with an RFID chip (Internet of Things), and also, possibly... the data of the vaccinated/implanted individuals. Smartphone technology will also be present, via tracking applications and "digital health passports" such as the COVI-PASS** (cf. <https://www.covipass.com/>), created by the company named VST Enterprises Ltd. and which is expected to spread to 15 countries initially (note that this company is already studying the possibility of extending this technology to 193 United Nations countries !). The 15 countries in question include the USA and many European Union countries.

**By an incredible "coincidence", the COVI-PASS corresponds in every way to what Bill Gates had planned ! This health passport will prevent anyone who tests "positive" for Covid-19 (or other illnesses) from traveling, or from accessing certain buildings and public places. In addition, this digital health passport will allow authorities to have remote access to all the most sensitive health data of individuals ! It is therefore a totalitarian and liberticidal technology we're talking about** (cf. <https://www.zerohedge.com/political/mass-tracking-covi-pass-immunity-passports-be-rolled-out-15-countries>) ! Hitler himself could not have come up with something worse...

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

Now let's go back to the Bill Gates' old company. **What has Microsoft been up to lately? Well, they patented a device which is grafted to the human body, connected to a computer network and which allows cryptocurrency transactions (= cashless society)** (cf. <http://imposture-bibliotheque-de-combat.over-blog.com/2020/04/apres-avoir-finance-id2020-microsoft-depose-le-brevet-d-un-appareil-greffe-au-corps-humain-permettant-les-transactions-en-crypto-mon> and <https://www.nowtheendbegins.com/microsoft-patent-buying-selling-cryptocurrency-human-body-device-id2020-mark-of-the-beast-666/> ) ! Worst of all, this device's patent number is **W02020060606** ! I suppose you noticed the "060606", containing the 666 number of the beast ? For the patent, take a look here : <https://patentscope.wipo.int/search/en/detail.jsf?docId=W02020060606&tab=PCTDESCRIPTION> .

**The abominable Bill Gates expressed his burning desire to vaccinate the 7 billion people who inhabit the planet.** (Cf. <https://www.youtube.com/watch?v=Nhf-wz7tP60> or [https://www.mediafire.com/file/6vivfwcysfrznee/E%26R Traductions %u2013 Bill Gates Vacciner 7 milliards de personnes en bonne sant%e9 %28VOSTFR%29 %5B720p%5D.mp4/file](https://www.mediafire.com/file/6vivfwcysfrznee/E%26R+Traductions+%u2013+Bill+Gates+Vacciner+7+milliards+de+personnes+en+bonne+sant%e9+%28VOSTFR%29+%5B720p%5D.mp4/file) ).

Is this Bill Gates nightmare of vaccinating (and chipping) everyone a real danger ? The answer can be found here : members of the WHO - an organization funded in particular by Bill Gates, I remind you - already **"demanded a vaccine for all"** ! (Cf. <https://www.france24.com/fr/20200518-a-l-assembl%C3%A9e-mondiale-de-la-sant%C3%A9-antonio-guterres-fustige-les-strat%C3%A9gies-divergentes-face-au-covid-19> ).

Moreover, **Bill Gates, pretending to respect free choice and vaccine freedom, considers the possibility of a refusal of the vaccine as "a last hurdle" to overcome.** He even spoke of speeding up testing for a "new pathogen", further stating that to convince people to take this highly controversial new vaccine, relatives of these people would have to not only test positive for the disease, but also get very sick ! He admitted that the covid-19 vaccine could "be deployed before it works perfectly" ! All of this during in the same interview on CNN (cf. <https://www.rt.com/usa/493068-gates-vaccine-consent-coronavirus/> , [https://www.mediafire.com/file/4cbq7wua210k6rx/Part 1 Entire CNN coronavirus town halls %28June 25%29 - CNN Video Bill Gates.mp4/file](https://www.mediafire.com/file/4cbq7wua210k6rx/Part+1+Entire+CNN+coronavirus+town+hall+%28June+25%29+-+CNN+Video+Bill+Gates.mp4/file) and [https://www.mediafire.com/file/npudi2ljo2qymyx/Part 2 Entire CNN coronavirus town hall %28June 25%29 - CNN Video Bill Gates.mp4/file](https://www.mediafire.com/file/npudi2ljo2qymyx/Part+2+Entire+CNN+coronavirus+town+hall+%28June+25%29+-+CNN+Video+Bill+Gates.mp4/file) ).

**And the scandal is : companies producing vaccines against covid-19 will have full immunity in the event of illness or death linked to their vaccines (see [https://www.zerohedge.com/political/red-flags-soar-big-pharma-will-be-exempt-covid-19-vaccine-liability-claims?utm\\_campaign=&utm\\_content=ZeroHedge%3A+The+Durden+Dispatch&utm\\_medium=email&utm\\_source=zh\\_newsletter](https://www.zerohedge.com/political/red-flags-soar-big-pharma-will-be-exempt-covid-19-vaccine-liability-claims?utm_campaign=&utm_content=ZeroHedge%3A+The+Durden+Dispatch&utm_medium=email&utm_source=zh_newsletter) ) !** Despicable governments have **accepted** this blackmail from the vaccine industry's murderers... which goes to show you how much they "care" about your health. And the worst part is that we **know** that these vaccines, produced in a hurry and therefore having no guarantee or safety, contain countless toxic elements !

Whatever happens, it is almost certain that the so-called Covid-19 crisis will remain a textbook case of destabilizing entire countries, and of applying the most advanced social engineering techniques. In fact, the real purpose of this artificially created crisis is to set up the first sketch of a one- world government, uniting peoples of the planet against a common external enemy (the virus) while enslaving them through fear, threat (fines, prison, surveillance technologies...), conformism... and liberticidal technologies.

Because you see, all of this was cleverly and carefully **planned** by the globalist bodies, ahead of time. For example, let's quote **the 2010 Rockefeller Foundation report** - you will notice that we always come across the same names ! -, which **already contained the notion of "lock step" (confinement, lockdown step) in the event of a pandemic** (cf. <https://archive.org/details/pdfy-tNG7MjZUicS-wiJb/page/n17/mode/2up> or [https://www.mediafire.com/file/i3jog3b6exqp71b/Rockefeller May 2010 vdocuments.site\\_s cenarios-for-the-future-of-technology-and-international-development.pdf/file](https://www.mediafire.com/file/i3jog3b6exqp71b/Rockefeller+May+2010+vdocuments.site_s+cenarios-for-the-future-of-technology-and-international-development.pdf/file) ). Note also the

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

**Global Vaccination Summit, which took place in Brussels on... September 12, 2019, almost 2 months before the covid-19 epidemic broke out in Wuhan (cf. [https://www.mediafire.com/file/uckt8shba68ro53/Bruxelles\\_Global\\_Vaccination\\_Summit-septembre\\_2019\\_10actions\\_fr.pdf/file](https://www.mediafire.com/file/uckt8shba68ro53/Bruxelles_Global_Vaccination_Summit-septembre_2019_10actions_fr.pdf/file) ).**

**Even more importantly, let us talk about Event 201, which took place on October 18, 2019 at the luxury hotel The Pierre, in Manhattan (NY, USA), and which allegedly constituted a "fictitious exercise" simulating a pandemic due to a very specific virus : the coronavirus ! (Cf. [https://www.researchgate.net/publication/340236453\\_The\\_Event\\_201](https://www.researchgate.net/publication/340236453_The_Event_201) ). Was it really the height of infortune and the result of an incredible "inspiration" ?**

**"Infortune" gradually turns into doubt when we know that this meeting, where guests entered by invitation only, was organized by the Johns Hopkins Center for Health Security, in partnership with ... the Davos World Economic Forum and... the Bill & Melinda Gates Foundation ! Simpletons will continue to buy into the official mainstream media version that this was just an "unfortunate combination of circumstances". Many others, on the other hand, see it as meticulous preparation, a sort of dress rehearsal for what would have been carefully planned.**

**As I write these lines, vaccino-chipping has not (yet) occurred, and we still do not know whether it will be made mandatory or not ... But everything is ready, and the globalists intentions, alas, are crystal clear. The period for which the infamous Covid-19 vaccines are planned, would run from October 2020 to the year 2021. According to the latest news, a vaccine obligation law is being studied within the European Commission (cf. <https://www.youtube.com/watch?v=IyZR16NBOkA> or [http://www.mediafire.com/file/9cn9hk9vdrn35wi/Une+loi+dobligation+vaccinale+se+pr%C3%A9pare+%C3%A0+la+commission+Europ%C3%A9enne+\(avocat+Luis+de+Miguel+Ortega\).mp4/file](http://www.mediafire.com/file/9cn9hk9vdrn35wi/Une+loi+dobligation+vaccinale+se+pr%C3%A9pare+%C3%A0+la+commission+Europ%C3%A9enne+(avocat+Luis+de+Miguel+Ortega).mp4/file) ). As for the USA, the odious governors of Virginia and Massachusetts have already announced that vaccination would be compulsory in their respective state, for everyone, without the slightest exception (cf. [https://www.zerohedge.com/geopolitical/virginia-plans-mandatory-covid-19-vaccinations-all-residents?utm\\_campaign=&utm\\_content=ZeroHedge%3A+The+Durden+Dispatch&utm\\_medium=email&utm\\_source=zh\\_newsourc](https://www.zerohedge.com/geopolitical/virginia-plans-mandatory-covid-19-vaccinations-all-residents?utm_campaign=&utm_content=ZeroHedge%3A+The+Durden+Dispatch&utm_medium=email&utm_source=zh_newsourc) )! The vile mainstream media, for its part, is already listing the cases for which the vaccine would be compulsory (see <https://lecourrier-du-soir.com/covid-19-le-vaccin-sera-obligatoire-pour-obtenir-un-emploi-voyager-aller-au-resto-ou-assister-a-un-evenement-sportif-ou-culturel/> ).**

**Anyway, the future looks bleak... Because now, microchip and nanochip implants are here, and they are among the most frightening projects coming from the degenerate elite who rules this world, with the aim of reducing in a drastic way the world population, and turning individuals all over the world into remotely controlled (and tortured) biological puppets. More than ever, the St. John's Revelations are topical.**

**The ultimate nanochipping technologies known to date are part of what is called neuralnanorobotics, and relate to nanotechnological structures (carbon nanotubes, nano-robots, etc.) which are housed in the body and cling to some specific cells in order to influence the brain and nervous system of an individual (cf. <https://www.frontiersin.org/articles/10.3389/fnins.2019.00112/full> ) ! By their tiny size, these nanobots/nanoparticles/nanochips are not detectable by the immune system, and can cross the blood-meningeal barrier, which is the brain's natural defense. Of course, these technologies are always promoted under the "best intentions", but let's never forget that these nanochips/nanoparticles/nano-robots are programmable, and can therefore be programmed to treat, to help ... but also to modify, to exploit, to control, to spy and to torture or destroy !**

**Targeted individuals, today, are mentally controlled by artificial intelligence (AI) supercomputers. And this is not just happening in the USA ! In Europe, the "Human Brain Project" is also studying these technologies (cf. [https://www.youtube.com/watch?time\\_continue=10&v=-wqQMGNNUA&feature=emb\\_logo](https://www.youtube.com/watch?time_continue=10&v=-wqQMGNNUA&feature=emb_logo) or [https://www.mediafire.com/file/mx04n5kefdvhd0j/DARPA\\_ADVISOR\\_REVEALS\\_CONSCIOUS\\_A.I.\\_SUPERCOMPUTERS\\_USED\\_FOR\\_MIND\\_CONTROL\\_OF\\_TARGETED\\_INDIVIDUALS\\_%5B720p%5D.mp4/file](https://www.mediafire.com/file/mx04n5kefdvhd0j/DARPA_ADVISOR_REVEALS_CONSCIOUS_A.I._SUPERCOMPUTERS_USED_FOR_MIND_CONTROL_OF_TARGETED_INDIVIDUALS_%5B720p%5D.mp4/file) ) ! The objectives could not be clearer: neuralnanorobotic mind control weapons acting through a brain-computer interface, allowing the remote control and manipulation of the neural circuits of the targeted person's brain !**

# Microchip and nanochip implants

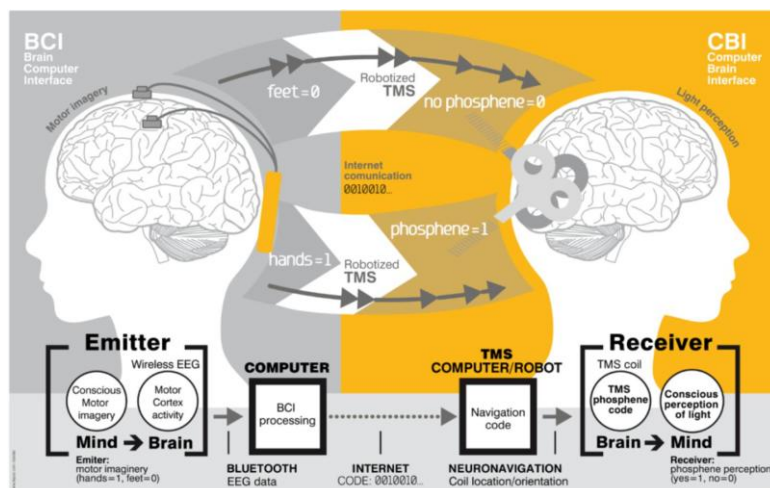

## Mark of the Beast, the Ultimate Danger – Final Warning

**So, via endoneurobots (nanobots that mingle with neurons), gliabots (nanobots that integrate with glial cells), synaptobots (nanobots that interfere in synapses), neural dust, wireless nanoscale transmitters, brain-machine interfaces and other technologies of the same kind, scientists are gradually achieving mad transhumanists's ultimate goal : modifying humans from within, and merging man and machine, with the ever-present possibility and the constant search for total biological control of the individual !**

Example of what can be done to an individual through nano-implants and super computers. You will notice that the victim here is not a dangerous bandit, but ... a whistleblowing activist !!!

**Now, brain-to-brain interfaces are also used to transfer information between human subjects (synthetic telepathy) :**

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

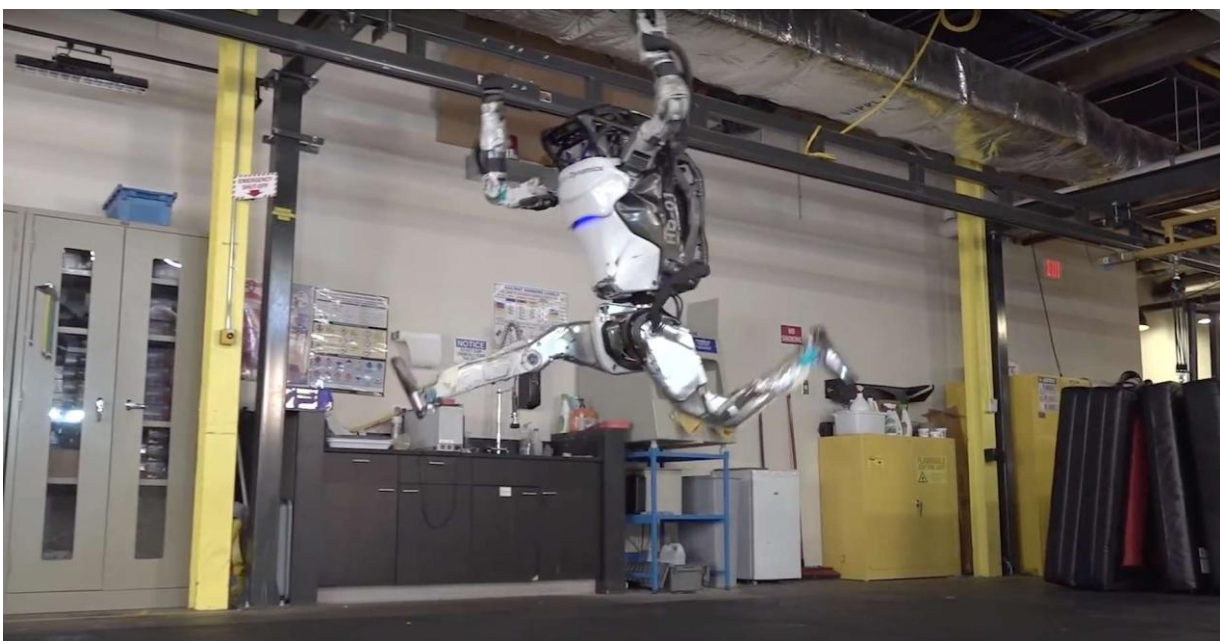

---

At the same time, **artificial intelligence and robotics are also advancing at high speed** : during the Covid-19 epidemic in Singapore, robots from the American company Boston Dynamics were used to observe (surveil and spy on) people present in public parks, checking out that “social distancing” or “physical distancing” between individuals was respected. Respect for privacy has therefore regressed via this disease, which has been one more excuse to police and control people (= shock doctrine) ! The robot in question was equipped with microphones through which police orders could be broadcasted (see <https://www.bbc.com/news/av/technology-52619568/coronavirus-robot-dog-enforces-social-distancing-in-singapore-park> ). **It's a total, orwellian reversal of values : we are now trying to instill in people that they must obey to what a machine orders them to do !**

A robot from Boston Dynamics. This machine was on patrol in Singapore's public parks during the Covid-19 epidemic.

Unfortunately, this robot is not the pinnacle of this technology - far from it, in fact. **Boston Dynamics also created humanoid robots called Atlas (from the name of the titan in Greco-Roman mythology) which are now capable of numerous movements** (cf. <https://www.bostondynamics.com/atlas> ). They just have to learn to fight and use a gun, and the army will have its troops of robots ! Imagine hordes of these androids roaming the battlefields ... You got it : the film Terminator is close to becoming a grim reality.

Boston Dynamics' Atlas robot in action ...

## **10. FINAL THOUGHTS AND CLARIFICATIONS ON THE TERM "MARK OF THE BEAST"**

In ancient Greco-Roman civilization, when a slave escaped, his master could then have him marked with a hot iron, **LIKE AN ANIMAL**, so that, should he escape again, everyone would recognize him (and denounce him) as a fugitive slave (cf. [https://fr.wikidia.org/wiki/Esclavage\\_dans\\_la\\_Rome\\_antique#Des\\_esclaves\\_s.C3.A9v.C3.A8re\\_ment\\_punis](https://fr.wikidia.org/wiki/Esclavage_dans_la_Rome_antique#Des_esclaves_s.C3.A9v.C3.A8re_ment_punis)). It was a matter of permanently depriving him of his freedom, or ensuring that he could never be free again, and that he could be spotted at all times thanks to his mark ...

Reading history about World War II, we learn that the Nazis, in order to help the tormentors of the concentration and extermination camps to be merciless towards the prisoners/slaves, had everything in place so that these humans were no longer treated as men, women and children, but **AS ANIMALS** or as beings that were inferior to animals. So, they were piled up in wagons **LIKE LIVESTOCK**, were given a bowl that they had to lick **LIKE BEASTS**, were tattooed **LIKE CATTLE** and were killed with a gas (zyklon B) that was used, initially, to kill insects, including lice (see [https://fr.wikipedia.org/wiki/Zyklon\\_B](https://fr.wikipedia.org/wiki/Zyklon_B)) !

**What must therefore be understood, is that dehumanization requires the animalisation or reification of man : in order to authorize the most serious crimes, the human being is reduced to an animal state, even to the state of a creature whose condition is lower than that of an animal.**

Similarly, in what is called war propaganda, in order to justify the most atrocious massacres against the opposing populations, the media and the army disseminate messages which demonize populations of the opposing country, or which make them look like inferior and detestable beings who must be "eradicated" without any mercy.

However, more recently, we have examples which prove to us without the slightest doubt that this animalisation or that this reification of man is always in progress, setting up the conditions for serious crimes against humanity in a near future.

For example, soldiers (and, in particular, American soldiers), in order to be identified, wear around the neck a collar with one or two medals indicating their identity, their battalion etc., under the pretext of being able to identify them in the event of death on the battlefield or severe mutilation in combat, for example ... And what is the name used for this necklace with medals, in English ? A "DOG TAG" ! These soldiers were therefore treated - deliberately or not, consciously or not - **LIKE ANIMALS** !

**Today, modernity and technology have brought us the following version: chip implants ! And guess who we started to chip, first and foremost ? Well, we started with ... ANIMALS (cats, dogs, cattle, horses ...) ! And after the animals, under the most devious and fallacious pretexts, we are now trying to chip the humans themselves, by lowering them to the animal level or, worse, to the level of things, in short relegating them to the stage of inferior beings ! We discover here a hidden - but so surprisingly correct - meaning to the term "mark of the beast".**

And that's not all, because chip implants, like the ancient brand mark with a hot iron, are intended to deprive individuals of all their freedoms, but in a much worse way, since these microchips and microchip implants even suppress the freedom of behavior, choice and thought ! Whoever is "marked" in this way will become a slave to the system installed by those who wish to reign as absolute masters on the planet. The human who has been microchipped will be tracked, spied on, controlled, manipulated, harassed, tortured at a distance or even killed anywhere, at any time, according to the will of the "masters", and he will have no rest, day or night, exactly as the book of Revelations words it !

As for those who refuse this mark of slavery, they will not be able to buy or sell anymore, and will be reduced, at best, to the state of marginals and excluded or, worse, they will be chased and eliminated. Not to mention that a forced implantation remains possible, as well as an implantation without the knowledge of people (since nanochips are invisible, can be inhaled or ingested, and are even able to enter our body via the pores of the skin...).

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

So, with these chip implants, we don't only have the notion of the enslaving marking which deprives the individual of his freedoms and makes it possible to identify him wherever he goes, but we also have the degrading notion of animalisation and reification of the human being.

As you can see, the incredible clarity by which the Bible's book of Revelations designates this kind of device by the terms "mark of the beast", is not the result of an unfortunate coincidence, but of a formidable and precise foreknowledge ! A prophecy which was granted by means of an "abduction in spirit" and visions entrusted to St John, who had this revealing experience in a cave located on the Greek island of Patmos, almost 2000 years ago, when forging iron was something that was barely known ! It makes you dizzy just to think about it ...

## **11. CONCLUSIONS**

This article is intended to inform you about real dangers that the mass medias hide from you or distort. Its purpose is that you will be able to inform as many people as possible about the danger that's at our doorstep, and that you'll **react** against what some global authorities have plotted at our expense...

Does reality seem dark to you ? OK. But it's not because it's dark that nothing can be done. We are the actors who build the world every day, and the vile system that is prepared for us won't be able to succeed if the population, worldwide, stands against that system. But we must change our views and react, we must have the courage to leave our little comfort behind and to voice our disapproval. Moreover, we must keep ourselves informed and be careful regarding the information that we're given, checking everything systematically (let's not forget that our medias are under the command of the government and are part of big multinational companies that are at the origin of the problem, so what these medias broadcast is usually fake or distorted information).

If your heart and your consciousness vibrated or woke up while reading this article, then please go on with this information task and tell your friends, your family and your colleagues, or broadcast this message to the maximum (in English or in a foreign language, because the message must be heard everywhere, the whole world must know and react).

We will only be able to avoid a worldwide catastrophe if we all react against what some psychopaths planned for our future. On the other hand, there are numerous well documented books and websites (some of them are featured in the next chapter) where you'll find additional information. Should you have some more doubts regarding the facts presented in this article, these websites and books will help you to see the truth...

Don't forget : during World War II, the few people who knew about the existence of death camps or who had succeeded in escaping from those camps, tried to alert public opinion. Very few people believed them; people just could not believe that human beings could be so cruel and that they could commit such horrible things. When the camps were freed at the end of the war, people were appalled and disgusted...

Don't forget about this either: the Nazis and their inhuman system were able to take the power thanks to the **silent consent** of German citizens ! If populations remain indifferent and just shrug their shoulders or let themselves be perverted by the mass media propaganda which sells the chip as a "miracle product", we can be **sure** that the microchip implant will spread and will be generalized, with all the gloomy consequences that this implies, and that a worldwide dictatorship will be implemented !

This article was written in this one and only goal: to warn you, so that we'll be able to avoid a catastrophic future, and so that you'll refuse that devilish microchip implant !

# Microchip and nanochip implants

## Mark of the Beast, the Ultimate Danger – Final Warning

---

**We must move and demand that the microchip and nanochip implants will be made totally prohibited, and completely illegal ! And we must remain eternally vigilant regarding the respect of our rights and freedoms !**

And please, don't hide the truth to yourself : our countries are NOT sheltered from that scourge. Remember : some meetings which Dr. Sanders attended to and which occurred "in a context of a worldwide government and of a unique currency" took place in Brussels and in Luxemburg, in the very heart of our so "clean and honest" Europe, which is already touched by the scourge of the chip implant !

Whatever happens in the future, should you or your children ever be proposed – or imposed – to be implanted with a microchip, you'll know what to answer ! **No matter what it costs, no matter what happens, say no to slavery for yourself and for the generations to come, say no to the single thinking society and to the death of your immortal soul, say no to the Mark of the Beast, and refuse the abomination of the microchip implant !**

**Say NO to the enslavement of humankind !**

**Say NO to microchip and nanochip implants !**  
**Say NO to the mark of the beast !**

It talks about the dangers of subcutaneous chips, RFID and nanotechnologies.)

- Anne GIVAUDAN (avec la collaboration du docteur Antoine CHAKRAM), *Celui qui vient, tome 2 : Les Dossiers sur le Gouvernement Mondial*, éditions S.O.I.S., Plazac (France), 1996, 352 pages, ISBN-10 : 2951467494 ; ISBN-13 : 978-2951467491. (Excellent book containing press reports and - among other things - a part devoted to the microchip. However, the subject of this book is much broader, and extremely interesting).

- Serge MONAST, *CIA, vaccins, médecine militaire expérimentale et cristaux liquides*, Agence Internationale « Presse Libre Nord-Américaine », numéro spécial, N°4-8, avril-août 1994 (cf. <https://www.mediafire.com/file/ltsatwau4wfcpry/monast-serge-cia-vaccins-mc3a9decine-militaire-expc3a9rimentale-cristaux-liquides.pdf/file> ). This is an old document which is still great for today. It is about "liquid crystals" vaccines (DNA & RNA vaccines).

- Serge MONAST, *Dévoilement du complot relatif au plan du chaos et du marquage de l'humanité*, 1993 (cf. <http://www.mediafire.com/file/c2le3img5rlqi07/monast-serge-dc3a9voilement-du-complot-relatif-au-plan-de-marquage-de-lhumanitc3a9.pdf/file> ). This is one of the first documents that was ever released in French about chip implants. It also contains Dr. Carl W. Sanders' testimony.

### **13. AFTERWORD :**

When I started writing this booklet 18 years ago, I was convinced that humanity, learning the truth about these slavery and death technologies, would wake up and react... I suppose that this was to be attributed to the enthusiasm and naivety of youth.

## Microchip and nanochip implants Mark of the Beast, the Ultimate Danger – Final Warning

---

If the message undoubtedly helped awaken certain souls, it was not read with the seriousness it deserves, and never started serious opposition to the evil globalist projects. I have always tried, as much as possible, to source everything I have written. But attempts by the beastly system and the mainstream media to discredit anyone who denounces global conspiracies have unfortunately helped keep many people away from studying these facts. Those responsible for these abuses will one day have to answer for their actions before divine justice.

**Today, some RFID applications have practically become commonplace, and cashless payments too. The barely believable decrease in freedoms over the past 20 years has completely transformed our world – in a bad way ! Countless liberticide technologies have swept the planet, and our ultimate freedoms (free will, freedom of choice and freedom of thought) are now threatened by the peril of microchip and nanochip implants.**

I think that some people (presumably a minority, if we read Revelations carefully) will escape the beastly system, but I believe today that the majority will unfortunately fall under the underhand seduction of evil leaders and mainstream media propaganda, finally condemning itself.

**However, we still have a very short time to try to get the message through ...**

I sincerely hope that we will be among those who will resist and escape the mark of the beast.

What will happen has already been written. Just read on from the last book of the Bible...

Good luck to everyone. We are going to need it !

*The devil's first victory is that people don't believe in his existence. And the evil conspirators' first victory is that the world does not believe in conspiracies ... especially when our era is chokfull of conspiracies, more so than any other era in history.*

**« For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. » (The Bible, Ephesians, chapter 6, verse 12).**
